

### Stop That Bachache!

Many Murphy Folks Have Found the Way

Is a dull, nerve-racking bachache wearing you out? Do you feel older and slower than you should? Are you tired, weak and nervous; find it impossible to be happy, or enjoy the good times around you? Then there's something wrong and likely it's your kidneys. Why not get at the cause? Use Doan's Pills—a stimulant diuretic to the kidneys. Thousands recommend Doan's. Read what a resident of this locality says:

W. A. Brown, 13 Wootrow St., Asheville, N. C., says: "When I bent over, sharp pains shot through my back, and mornings, I was lame and sore. I had dizzy spells and, too, my kidneys were weak and out of order and the secretions pained in passage. After using Doan's Pills, I was entirely cured." (Statement given April 20, 1918.)

On January 11, 1924, Mr. Brown said: "I have had no need to use Doan's since they cured me."

### WOLF CREEK

Several of our people went to Harperton, beyond Copperhill, to the district fifth Sunday singing convention, and came back rather disappointed, as there were but few classes and not much interest manifested.

Mr. and Mrs. George Ledford report the birth of a fine boy on late Friday.

But little interest was taken in the Republican primary held here on Saturday of last week, although nine tenths of the voters are republicans.

The Rev. George Passmore preached at Macedonia Sunday.

## Nurses Carry Health Education Into Thousands of Workers' Homes; Aid Babes and Young Mothers

To the young mother the tiny new baby is like a piece of bric-a-brac. She is afraid to handle it for fear she might break it. The first bath is such a fearsome ordeal that it has become customary for the nurse who administers the pre-natal care to come and give the little stranger his first good washing.

Education of this sort is part of the work of a visiting nurse. The aid given sufferers of any sort must always be a demonstration as well, so that members of the family may continue the care.

The nursing service of the Metropolitan Life Insurance Company reaches 3,955 towns and cities in every state in the union and every province in Canada. In the two winter months of this year nurses made 424,986 calls at 102,395 separate homes. The nurses in more

remote sections lead the life of the circuit rider, travelling in their flivvers over almost impassable roads and often going on horseback or on foot through wild country to reach their destination. It requires dogged determination and physical strength to be enlisted in the service and sometimes on the outskirts of large cities the nurse will spend precious hours tramping through the mud to find a shack which is in no street and has no number.

The account is endless of the sickness and suffering caused by the ignorance of people of the poorer class and especially foreigners. One woman with five children had neglected an infected finger. The nurse summoned by the agent struggled through fields of mud only to find that the woman was sure it was nothing serious. The nurse insisted that a doctor be summoned, but the woman did not want to spend the money.

When the doctor finally came he lanced it at once and declared that it was only just in time to prevent the loss of the hand if not the woman's life.

Most of the women are eager to learn so that they may give their children the best possible treatment. One young mother, with four small youngsters, the oldest of which was four years, was especially clean and careful, but measles invaded the home. The three oldest children had it, but the nurse said the baby needn't get it if the mother would take proper precautions. This woman's day was not so full but that she could find time to follow instructions to the letter; changing her apron every time she tended the baby, keeping him isolated in a separate room, boiling everything, omitting no smallest detail. Eternal vigilance was the price of success and the baby escaped.

funeral of Mr. Bill Nix, held at Pleasant Hill church Thursday afternoon. Mr. Nix got killed in London Mine, one of the mines operated by the Tennessee Copper Co. He was shift foreman there and perhaps there was not a man in all of the Ducktown basin that was better known. He had

been nearly killed at time or two before while working in the mines and had lain in a hospital several months as a result. Mr. Nix leaves a wife, several children and a host of friends to mourn his loss. The funeral services were conducted by the Rev. O. J. Bell, and he was laid away by the J. O. U. A. M., of which or der he was a member.

### Ross Voyles Is Shot By C. S. Patton

About 2 o'clock Wednesday afternoon Ross Voyles, son of S. A. Voyles was shot by C. S. Patton. He received two flesh wounds, one in the foot and one in the thigh. The ball penetrated the foot. The exact location of the ball in the thigh was not determined. The shooting was done with a pistol.

The affair grew out of a long standing difference between the two principals, it is understood. The immediate cause was a dispute which is understood to have taken place near the store of Mr. S. A. Voyles, followed by words in the lumber yards just beyond the Furniture factory, where the shooting took place, Voyles is said to have used or attempted to use rocks.

The wounded boy was carried to the hospital where his wounds were dressed, after which he returned home. Mr. Patton came to town and gave up to officers and prepared to make bond, which he expected would be fixed when preliminary hearing was had before an officer of the law.

### Members Asked to Attend Church Sunday

It is hoped that the entire membership of our church will be present for the services on Sunday. Important business connected with the Truett meeting will come up for discussion at that time.

### For All the Family

"WE have used Black-Draught ever since we have had a family and that was shortly after 1874," says Mr. E. A. Branstetter, of St. James, Mo. "It is my first remedy when any of us gets sick. . . . We use Black-Draught for torpid liver and stomach complaints.

"When I get sluggish and don't feel so good, I take Black-Draught—and you have to show me that there is a better medicine

in Missouri. I think it is fine for indigestion or for headache. It is a splendid family remedy. My wife uses it for any stomach ailment, indigestion and biliousness. We never let the house be without it if I know it. We also give it to the children for children's complaints, colds or fever."

Keep a package of Black-Draught in the house for all the family.

Your dealer will sell you a mammoth package, containing five of the regular-size packages. It's cheaper.
