Shares Now Being Offered In E. & L.

During this month shares in the second series of the Murphy Building and Loan Association are being offered for sale. As is well known, this is a home building organization and will probably do more for building nice dwelling and business houses than any other organization that could function in the town.

The shares are worth \$100 when they mature in about six and a third years, but they are sold on the installment plan. Twenty-five cents initiation fee and then twenty-five cents per week on the share is all that must be paid on them. If the shares run until they mature, they will have paid approximately six per cent on the investment.

This stock provides an easy means for one to build a home, as loans are made on the stock for the purpose of building wherever the applicant owns his own lot free of all incumbrances.

It provides an opportunity for those who are on weekly wages or small salaries to save a few hundred dollars and never miss it.

It gives the larger investor and the salaried and profession class an opportunity to help develop the town without taking any personal risk whatever.

It enables all to help themselves and at the same time help their neighbor and their town.

It is absolutely safe as all loans are secured by deed of trust on property worth at least a third more than the amount of the loan.

Every citizen in town should have a few shares. It is not a money making organization. No salaries are paid. It is an organization that belongs to the community and is trying to serve it. All should share in it.

The most dangerous multiplication in mathematics is that used in computing the increase of the unit.

session of it for the past few weeks. Mr. White will continue its operations at the old location in the Elberta building.

Distillery Captured On Persimmon Creek

Deputy Sheriff J. N. Bell, of Bear House Township, brought to the Sheriff's office Wednesday afternoon a fifteen or twenty-gallon copper distillery which he captured early in the morning on Persimmon Creek. About three and a half gallons of high wine and liquors were destroyed. No one was at the outfit when it was taken but it was still warm, and it was Mr. Bell's opinion that the operator or operators had just left it a little while before he went to breakfast.
