MOTHER GONE

We laid her in the old church yard of her youth she believed in that expressed in the following words.
Death shall not destroy my comfort Christ will guide me through the gloom. Down he'll send some heavenly convey to convey my spirit home. Jardans stream shall never overflow me while by Savion by my side conaon his beforve me rise and cross the swelling tide. Soon with angles I'll be marching bright the glory on my brow who will share my blissful partion who will love my savior now, the wife of,

Subscribe To The Scout TAKE YOUR CHPRCH PAPER

It has been said of Dr. George W. Truett that it was from the Baptist papers of his father's reading table that he got a knowledge of Baptist life, which has ever had a charm for him; and it was from those papers that he acquired a love for literature, which habit has made him one of the most widely read men of today. It was from these papers that he caught glimpses of the expanding Kingdom of God and felt the impulse to be in the ranks.

Parents, how can you serve your children better, or render a better service to your church and your God than by getting your children to read good literature, especially to read the publications of your own church press.

correct internal troubles, stimulate vital organs. Three sizes. All druggists. Insist on the original genuine Gold Medal.

A Worn Out Range Is a Luxury

Such a stove wastes fuel. No one knows how much, but certainly enough to pay for a new one in a few years.

It also wastes time and food and the best cook in the world can't turn out a first class meal with such a stove. And it's generally an eyesore which makes the wife ashamed of her kitchen.

GET AN IMPERIAL

If you don't want your old range to continue shooting dollars up the chimney and producing unsatisfactory meals in return for hours of patient toll, get a new Imperial.
It's large, unobstructed flues, give perfect circulation of heat. Flues under the oven insure heat evenly at all points and the oven plates are heavy and

of uniform thickness, insuring even baking. Large oven surface exposed to heat.
All body joints are air tight so that no cold air can interfere with the baking and cooking, while the drafts are of a proper size for grate surface, fire box and flue construction. An extra large draft will provide equal combustion the entire length of the fire box.

Why Not Close The Book On Law Making

Too many laws and too stringent regulations are just as detrimental to the public welfare as too few. The greatest problem which confronts the American railroads to-day is not one of transporting freight and passengers, or of its dealings with the public or its employees.
The real transportation problem is the never-ceasing activity on the part of politicians and lawmakers in suggesting changes in present laws and substitutes for those railroad regulatory measures which are working satisfactorily. In addition to suggested changes, new laws affecting the railroads are being proposed in many states, in the National Congress.

Why not give the railroads a legislative holiday? Why not close the book on lawmaking until there is a well-demonstrated need for new or different regulatory measures; and permit the carriers to operate efficiently and satisfactorily; continuing to afford to the people of the United States the best transportation facilities on the face of the globe, and at the lowest cost to the people?
Just at this time, it is interesting to know that the actual Governmental expenditures on account of railroad regulation during the year of 1923, totaled \$5,293,444.00.

WHOLE BODY SEEMED IN ONE AWFUL PAIN

Morse, La.—Mrs. L. P. Lambert, who has been a popular school-teacher here for several years, recently told a visitor of her interesting experiences with Cardui.
"Just before my . . . came on," said Mrs. Lambert, "I would ache all over. My feet, my toes, my arms, hands, head—my whole body seemed to be in one awful pain. I would grow so nervous that I could not hold a cup in my hand. My husband would have to hold my coffee for me to drink. Last fall I was in such a bad condition that I had to spend about three days in bed every month. It seemed to me that I was on my last go-round."
Then one day, said Mrs. Lambert, she happened to read about Cardui and the experiences of some women who had been helped by it. "I felt that Cardui might help me if I tried it," she continued, "for I had been suffering with similar troubles to those mentioned there. I had heard of Cardui all my life and I knew many women who said they had been helped by it. The very next day I began to take it. "Very soon after, I began to notice my improvement. I kept on till I felt like a different woman. I gained in weight from 98 pounds to 115 and felt better than I had in years. I took six bottles right along and found it a splendid tonic. My suffering was partly due to a run-down condition and the Cardui stimulated my appetite and helped me to gain the strength I needed. . . . I take a bottle every now and then, even now, just as a tonic to keep up my strength, but I am in better health than I have been in for years."
All druggists sell Cardui. Try it.
