There are but few people today who have not heard something of Chiropractic. People who have tried all other methods of regaining health are turning to the drugless methods. (Nature's way) Not the "single-track" method of doing for the "great uncured", as most practitioners do, but a through and scientific method which can be had nowhere else in this part of the country. Electricity is revolutionizing the healing science, given in a scientific manner with a scientifically constructed machine which produces a beneficial, healing effect that can be gotten in no other way. Investigate as to what it has done for many so-called hopeless cases. In my office I have many testimonials as to what I have done for Asthma, Appendicitis, Stomach-trouble, chronic head-ache, constipation, kidney, spleen and liver trouble and many others. What has been done for others can be done for you. No Drugs, No Pain. Just Nature's way of restoring the body to a healthy condition.

WHY SUFFER SO?

Get Back Your Health As Other Murphy People Have Done.

Too many people suffer lame aching backs, distressing kidney disorders, and rheumatic aches and pains. Often this is due to faulty kidney action and there's danger of hardened arteries, dropsy, gravel or Bright's disease. Don't let weak kidneys wear you out. Use Doan's Pills before it is too late! Doan's are a stimulant diuretic to the kidneys. Doan's have helped thousands. Here is one of many cases in this locality:

Mrs. W. R. Davis, 1248 Killian St., Waynesville, N. C., says: "I had a dull ache in my back that made me feel worn out. When I bent, sharp pains darted through me and I had blinding dizzy spells. Mornings, I was all lame and I could hardly get around. I had nervous headaches and my kidneys did not act right. Doan's Pills relieved me of the trouble."

OVER FIVE YEARS LATER, Mrs. Davis added: "I still use Doan's occasionally and get the best results. 608, at all dealers. Foster-McMurrin Co., Mfrs., Buffalo, N. Y.—Adv.

Utility

Every Day in the Month
Twelve Months in the Year

More motorists every day come to the conclusion that for year 'round utility there is no more practical or convenient car than a Ford.

The Fordor Sedan is roomy, comfortable, and attractive in appearance—inside and out.

In city traffic it handles and parks so easily that thousands drive it who could readily afford costlier cars.

On country roads it comes through where heavier cars frequently cannot. Such qualities as these have brought the Ford its well-deserved reputation as the "Universal Car."
