Do You Suffer?

Backache isn't the mystery it used to be, years ago. Most times it's due to kidney disorder, which means simply that the kidneys aren't working as they should to filter the blood and keep it free from uric poison. So, if your back is lame and sore and you are nervous, despondent, sick, irritable, subject to dizzy spells and bladder difficulties, you want something to help the kidneys do their work. Drink plenty of water between meals and take Dr. Pierce's An-uric (anti-uric-acid) tablets before each meal. Get An-uric at any drug store. This is the new kidney-backache diuretic discovered by Dr. Pierce, Pres. the famous Clinic in Buffalo, N. Y. Send 10c for a trial package.
