Atlanta, Ga., April 27.—Details of the plan under which more than 8,000 banks in all Southern States will cooperate in the distribution of one million Confederate Memorial Half Dollars, recently passed by the United States Government, were announced recently by Robert F. Maddox, Chairman of the Southern Bankers' Committee, supervising the issuance of the coins.

Simultaneous release of the Memorial coins is to be made all over the United States on the morning of July 3, when commercial banks co-operating in the distribution are authorized to redeem coin certificates for actual Half Dollars.

Certificates entitling their holders to coins will be on sale at all banks prior to July 3.

In a circular addressed to the heads of all Southern Banks, the plan is outlined as follows:

"Previous to July 3rd there will be issued to subscribers to the Confederate Memorial in every city certificate entitling the holder, on or after July 3rd, to an equivalent number of the Memorial Coins.

"These certificates will be issued to the public through two agencies: "a—The Commercial banks in each community co-operating in this nationwide distribution.

"b—Volunteer organizations of public-spirited citizens, which are to be formed under the direction of the Stone Mountain Monumental Association, and the auspices of a nationwide committee of sponsors.

The allotment of coins to individuals and families through the Commercial Banks will begin as soon as these institutions have forwarded their initial orders and received their quota of coins from the District Reserve Bank, and have been supplied with the necessary coin certificates."

"Every Commercial bank is inviolable of the sentiment, not only of the South but of the nation, the demand for the coins will far exceed the supply available at this time, since a part of the coinage issue is being reserved by the Association for future needs.
