HELP EXPANSION OF THE POULTRY INDUSTRY IN N. C.

North Carolina Division of Market to aid Through Establishment of State Accredited Hafch. Establishment of State Accredit-

erjer and Hatchery flocks

(From N. C. Market News Edited By Miss H. M. Berry)

Miss H. M. Berry) The Baby Chick is the entering wedge for building a great poulty industry for North Carolina. The ages of the farmer are gradually be-ing opened to the fact that qoultry can be made of their major industries and that much of the trade now going to the West from the great consum-ing centers of the East can be divert-ing others of the East can be divert-ing others of the South and North Carolina ing the industry will not have to bear. The baby Chick is the entering poor flocks, and those have been allow the presentation of the trade now going to the West from the great consum-ing centers of the East can be divert-od to the South and North Carolina the industry will not have to bear. PAGE >

Raltigh, June 22 .- According to

Raltigh, June 22.—According to plans made by the State Division of Markets and approved by the Poultry Department of State College and the North Carolina Poultry Association recognition will be given to hatch-eries standard breeding flocks that will sell baby chicks according to certain rules and regulations laid down by the Division of Markets. According to V. W. Lewis, in charge of the poultry and livestock section of the division, the State certapios a fortunate position insofar as the markets for poultry are con-cerned. North Catolina is between the great consuming cities of the East and the great winter resorts of Florida. In the bordors of the State and the great winter for North Catolina to device the present at is essential therefore, for North Catolina to device a much larger populity industry to a much larger proportion. proportion.

The baby chick industry is growing, The baby chick industry is growing. It is essential that these chicks come from eggs produced by pure bred standard varieties of fowls and that they be free fro indisease. The idea behind the accredited hatcheries and hatchery flocks is to have a supply of hyperium stock of mark from which of breeding stock of merit from which prospective growers may purchase chicks guaranteed by the Sinte. To do this, those growers who wish to be put on the accredited list will have to conform to certain rules made legal by the action of the North Carolina General Assembly. The Division of Markets states that the investing of the Linkstone states that

the inspection of the flocks and hatcheries is not compulsory and no own-er need Icel that he is compelled to have this inspection, but the plan is offered for those who desire to make use of State inspection as an app al for such chicks as they offer for

North Carolina complex a very so, and a number of convictions seemstrategic position georgraphically so far as markets for poultry are con-lations, to the end that accidents cerned, being situated between the great cities of the East and the great winter reserve of Elorida to the South winter resorts of Florida to the South winter resorts of Florida to the South we also have within our borders the and stated that they would be entorgreat playgrounds of western North ced.

Tuberculosis

Can Be Avoided

Sanatorium, You can avoid tubersveti Sanatorium .- You can avoid tuberculosis by: Not moving into a house or working where a person who has had tuberculosis has lived until it has been disinfected by the board of has been disinfected by the board of health or your doctor. Funigation-alone will not kill the germ. The free w. of disinfectants, followed by sunlight and fresh air, and then while wash, calcimine or fresh paper-ing will remove danger of infection from germ-haden rooms

Not spitting yourself or allowing any one about you, sick or well, to spit where it canot he burned up or thrown into the sewer. Admitting sunlight and air to every

room of your house or work place, and keeping these rooms as clean as possible. _____ Taking care care fo your body and

those of your family. Eating good, properly cooked food, taking a warm bath once a week, avoiding late hours and dissipation of all kinds, spending as much time as possible out of doors. Wearing loose, clothing that does not cramp your lungs. Not stooping your shoulders or allowing your.

contact with people who cough, be-cause children take tuberculosis easier than grownups. You ne not be afraid of a careful, clean

consumptive, but avoid the careless one and keep your children away

Sinple meals in summer are best for the family's health and mean less
