So Weak Couldn't Stand. My wife's health broke down and for years she was just a physical wreck. Mr. Thomas Glynn, of Gibson, La. "We did everything we knew, yet she seemed to get worse and worse. She was so weak till she couldn't stand, and had to be carried like a baby. It looked like nothing would save her that had been done. CARDUI For Female Troubles. "I began looking around. I knew that Cardui was for women. I decided to try it for her as all else had failed. She couldn't eat, she couldn't sleep, and I was desperate. "After taking a few doses of Cardui, we were so glad to note that she wanted something to eat, and with each day's nourishment, and each day's doses of Cardui, she grew stronger and got up out of bed. She is now able to cook, and stronger than in a long time." Cardui has been in successful use for nearly 50 years in the treatment of many common female troubles. All Druggists' g. 108

Mr. Jeff Hickey, who is, normally considered a fast ball, was completely disabled by the explosion of a deep well, has evidently fully recovered. Witnesses say that he owes his life to the quick action of Everett Nichols in pulling down after him. The well was 45 feet deep, and some blasting had been done to widen the bottom of it. Mr. Hickey was worried about getting down so soon after the explosion, but persisted. Fresh air was being pumped down into the well. Men should be careful about taking unnecessary risks. Well-blasting should be done by skilled men.

The friends of Mrs. W. H. Griffiths will be glad to learn that she is able to be out again after a recent illness.

Firestone will ALWAYS give Most Miles per Dollar. No matter where crude rubber prices may go—Firestone advantages in securing raw material, in manufacturing and distribution are always active to make good the pledge of Most Miles per Dollar. Racing drivers—hill-climbing and endurance record holders—taxicab, motor truck and bus operators—and hundreds of thousands of car owners—are daily emphasizing the unheard-of mileage and service delivered by Firestone Gum-Dipped Cords. Gum-Dipping is one of the biggest factors in tire performance and long mileage, making Firestone Gum-Dipped Cords the most economical tires ever offered motorists. The cord from the fabric mills is first delivered to a separate plant where it is treated in a solution of gum, which insulates every fiber of every cord. This protects against internal friction and heat, giving the sidewalls greater flexibility and additional strength. Prove Firestone's many superiorities for yourself. If you have never had the safety, comfort and economy of these serviceable, long-mileage tires—go to the nearest Firestone Dealer—for Firestone only builds Gum-Dipped Cords.
