

NEW IDEA ABOUT HATS

The women all want new hats every season and now the time has come when they can get them at their own price. The "new" hat is now what we want to see about. White, pink, and all the little colors and designs that are in the "homed" hats can furnish new hats in these beautiful styles. Hat, Ties, Green, Purple, Blue, Black, Brown and Tan. Also furnished in the colors of the seasons of Red, Green, Yellow and Tan. You will be talking about the new styles and designs in a few days and you will be about a hundred dollars, we guess.

The Company will give a very liberal commission contract (direct with Home office) to a good personal producer. (37-21-pd)

Be Neighborly!

If you are one of those who have written for The Charles William Stores' Catalog of big bargains and haven't received it we are sorry. The reason is, an amazing demand for this book has exhausted our supply. We earnestly ask you to borrow a catalog from one of our customers—there are many in your community—and we are sure they will oblige you. . . . and us. . . .

Of our old customers we ask please help us and your less fortunate neighbors by loaning them your catalog for a while.

We could not foresee how great the demand would be for this catalog and as our Special Midsummer Sale Catalog will be published so soon—May 15th, it seems hardly practicable to print a fresh supply of the big book before the special sale catalog is out. We have all the big bargains that have made our catalog so popular and created the huge demand, but unfortunately we have no more books. However, if our old customers and new ones will co-operate with us they will render a real service to us and to their neighbors. We thank you.

The CHARLES WILLIAM STORES New York City Inc.

NO MATTER how anxious we might be to produce the more effective fertilizer, it would be impossible without the skill acquired in more than forty years' experience, and the exact and intricate processes of manufacture which we have perfected, one of which is shown above.

Ford Highest in Quality Lowest in Price

Ford cars are built throughout of the finest materials that can be produced. The very best steels available are used in Ford manufacture. The plate glass for windshields and windows is as perfect as can be made. Upholstery material contains a larger percentage of wool than is ordinarily specified— even for much higher priced cars. The basic features of Ford design have never been improved upon by any manufacturer.

No other car offers greater dependability. The Ford car has won the favor of millions of users under every conceivable motoring condition. Its convenience is known and appreciated the world over; its performance is taken for granted.

Such quality is possible at Ford prices because every operation, from mining of ore to final assembly, is under direct control of the Ford Motor Company.

Iron is taken from Ford mines in Michigan; coal from the Company's mines in Kentucky and West Virginia. Glass comes from Ford glass plants; wood from the Ford timber tracts in the North. Raw materials and finished products are carried over the Company's own transportation routes; coke ovens, blast furnaces, a steel mill, foundries and saw mills—all are part of this complete organization. There are even salvage plants, paper mill, cement plant, etc., to transform waste materials into useful by-products.

In this way every possible economy is effected. Under no other circumstances could Ford quality be had at Ford prices.

Features That Maintain Ford Leadership

All-Steel Bodies	Thermo-Syphon Cooling
Planetary Transmission	Simple, Dependable Lubrication
Torque Tube Drive	Three-Point Motor Suspension
