Bilious dull feeling
MY old stand-by is Thedford's Black-Draught-I have used it off and on for about 20 years," says Mr. W. S. Reynolds, of R. F. D. 2, Arcadia, La.
"I get bilious and have a bad taste in my mouth. My head feels dull. I don't just feel like getting around and doing my work. I know it isn't laziness, but biliousness.
"so I take a few doses of Black-Draught and when it acts well, I get up feeling like new—full of pep and ready for any kind of work.
"I can certainly recommend it."
In case of biliousness and other disagreeable conditions due to an inactive liver, Black-Draught helps to drive the poisonous impurities out of the system and tends to leave the organs in a state of normal, healthy activity.
Black-Draught is made entirely of pure medicinal roots and herbs and contains no dangerous or harmful mineral drugs. It can be safely taken by everyone.
Sold everywhere. Price 25c.

A New Subdivision of Value
A New Subdivision Located Two Blocks from City Square
A New Subdivision with Improvements
A New Subdivision with Natural Shade
A New Subdivision in North Carolina's Best Town
There are just a few things in our selling career that we have an opportunity to express so many hard boiled facts concerning the property being sold, as is the case with the E. C. Moore Subdivision.
It goes without saying that Murphy, N. C., is one of the leading and most progressive mountain towns throughout the Blue Ridge Section. The people are of the highest standards, progressive, and possess all the social qualifications that society calls for. It does look like this special location was set out by our forefathers to be inhabited by the class of people that now represent it.
Paved streets, sewerage, waterworks, electric lights, county roads paved throughout the mountain section, fine school buildings with the best instructors that money can employ, elegant churches, valuable storehouse. In fact, no town in America of the same character offers better environments and environs.
Murphy, N. C., heads one of the fertile mountain valleys of North Carolina. Crops are very prolific, and in fact, when you drive through this particular section you not only breathe the pure mountain air and prosperous atmosphere, but see with your own eyes one section of America that's getting along its very best from its own actual performance.
Remember, we claim that there have been bigger developments throughout this area, but there has never been a development, considering size, that offers more to the home seeker, speculator, investor, or any other class of prospects that may be inclined to attend this sale.
