That they may carry on

Look into the face of your boy or girl. There's fine stuff there—that lift of the head is pride—there is intelligence in the level eyes. A man or woman of the South—in the making. Our children live in a day of high pressure. The South has taken its place in the front ranks of industry. Modern methods of manufacture, scientific farming, improved transportation—all are factors in building the industrial South. This development brings with it many changes in our customs and habits. But we must hold fast to the idealism of the Old South—the ideal of useful and intelligent citizenship. The children must carry it on. This is primarily a matter of education. The average year's pay of teachers in elementary and secondary schools in the states of the South served by the Southern is only \$637. Southern Railway System, which pays three million dollars per annum in school taxes, ventures to express the view that greater material rewards should be enjoyed by the men and women upon whom rests the responsibility of teaching the children of the South.

"—knowledge being necessary to good government and the happiness of mankind, schools and the means of education shall forever be encouraged." From the Constitution of the state of North Carolina.

Indigestion bad spells relieved

NOTHING can take the place of Theodor's Black-Draught with us because we have never found anything at once so mild and so effective," says Mrs. Hugh Nichols, R. F. D. 4, Princeton, Ky. "When the children have spells of indigestion and upset stomachs, I always straighten them out with a dose or two of Black-Draught. Several times I have suffered with bad spells of indigestion myself and found I would soon get relief if I took a course of Black-Draught. I was troubled with a bad accumulation of gas and severe pains across my stomach and lower bowels. Now when I feel a spell of this kind coming on, I head it off by taking Black-Draught—a dose every night for a few nights will prevent the trouble and save me much pain and suffering. My whole family uses Black-Draught for biliousness and constipation. It is a splendid medicine!" Sold everywhere. 25 cents.
