**Run-Down**  
gave out easily

"MY health wasn't any account at all," says Mrs. H. L. Cuyler, of Washington, N. C. "I would start to do my housework and I would give out before I had done anything at all. I did not have any strength, and if I did the least thing it seemed to tax me so I could not finish. I was run-down sure enough. Several of my friends had taken Cardui and they said to me, 'Why don't you try it?' I knew I needed something to build up my general health and to increase my strength. Finally one day when I was recovering from a spell of sickness, I decided to try Cardui. I got a bottle and began to take it. I could notice that I was improving as my appetite got better and I did not give out nearly so quick. I took several bottles and I felt lots better. Two years ago I decided to take it again. It built me up and made me feel like a different person. It is the grandest medicine for women that I know anything about."

# The SOUTHERN RAILWAY should be owned in the South

IN THE SOUTH there are many great industries which, with their products, are known the country over.

One of the greatest industries of the South is the Southern Railway System. It is one of the largest employers of Southern men and women, a large purchaser of Southern products, and one of the South's largest taxpayers. It is also foremost among the carriers of Southern products.

We who are devoting our lives in the service of this railroad like to call it *ours*. And you who travel on it and ship on it, day in and day out, are entitled to call it *yours*.

It will be a great day for the South and for the Southern when thousands of small and large investors of the South speak of the Southern Railway System as *theirs*.

**SOUTHERN RAILWAY SYSTEM**

The Southern serves the South
