### HOW TO SPEND CHRISTMAS

(By Howard Hall.)

There is an appreciation that is highly favored among a very great many people when Christmas begins near us again. If there ever could be a time of appreciation and a spirit of love and devotion paid to God and our fellowmen, it should be near Christmas time, and especially throughout our Christmas day.

When we think of a day that is set in honor of the birth of ouravior, we realize that it is one of the greatest and one of the most sacred that ever could be kept in the world. Our reverence and respect should be paid to Christmas as one of the most sacred days on earth.

There is a great deal of difference in the way some people spend Christmas, than the way others do. For example, take a young man who has saved his earnings through theard toils of summer, and has sought to gain a livelihood for himself. Probably during the Christmas days his earnings will be lost forever. Why should we say this? We may answer by saying, that the young man has been influenced by evil young men or older men who get all their methods together of presenting a "big me" in view before the young man. Consequently he will not remember the money or the way he ought to spend Christmas. Nine times out of ten he pockets a bottle of intoxicating liquor and goes to a big dance. "This is the way to have a big time", says

If there could ever be a time of prayer and thanksgiving to the good Lord for His love for us, it ought to be on this great day, Christmas. Even on this Christmas day was Christ Jesus born into the world as the little infant Savior. God loved us as people, boys and girls, men and wo-

### Faulty Elimination

Should Be Corrected—Good Elimination Is Essential to Good Health.

If you would be well, see to your elimination. Faulty kidney action permits toxic material to remain in the blood and upset the whole system. Then, one is apt to have a tired, languid feeling and, sometimes, a toxic headache or headache, and often some irregularity of secretions, such as scanty or burning passages. More and more people are acclaiming the value of Doan's Pills, a stimulant diuretic, in this condition. For more than forty years Doan's have been winning favor the country over. Ask your neighbor!

Mr. and Mrs. G. B. Nabb are leaving Thursday morning for a stay of several days in Florida. Mr. Nabb formerly was employed in Florida.

Miss Edna Seronce who has been teaching in Hendersonville, N. C., is spending her Christmas with her mother, Mrs. John Seronce.

men. Through loving us he sent Jesus Christ into the world to suffer and die that we might live and have everlasting life. "For God so loved the world, that he gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life."

Then how should we spend Christmas? Should we not try to pay our respect to our good Master? There are many good things we can do in giving gifts, in making sweet music. Sweet music was heard by the humble shepherds when our Dear Savior was born into the world at Bethlehem. How sweet and pure the songs we are going to sing should be in praise to God for His love He has had for us.

There are thousands of boys, girls, men, and women who are in sin and who have not heard of Christ, and who do not know how to spend Christmas. Then we that know, especially as young men should endeavor to keep ourselves in the right attitude

## More Value than the Price Suggests

In the year just drawing to a close the price of Dodge Brothers Motor Cars was materially lowered.

Yet during this period more important improvements were incorporated than in any year in Dodge Brothers history. Advances were made in engineering and body designs. The cars possess a greater degree of smoothness, silence and ease. They are more comfortable, more beautiful.

Current prices—made possible, of course, by constantly mounting sales—are therefore not an obvious measure of value. Prices, in fact, have never told the full story of Dodge Brothers dependability and basic worth.

But now, more than ever before, there is far more value than the price suggests.
