

When Mother is Alarmed!

CONSTIPATION, biliousness, coated tongue, feverish headache, sick stomach--then is the time when mother relies upon Dr. Caldwell's Syrup Pepsin. "My son had been constipated and bilious since birth. At the age of five he had such an attack of sour stomach and bad breath I had to take him out of kindergarten. It was then I gave him Syrup Pepsin. He improved from the first dose and soon was back to school completely restored and healthier than he had ever been before. It is a great comfort to have a medicine for children in which we can have such implicit confidence." (Name and address sent on request.)

Wins Confidence of Old Folks

Old people are charmed by the gentle, kindly action of Dr. Caldwell's Syrup Pepsin. No pain, gripe or depressing "flushing" of the bowels. Just an easy movement and the fine feeling of restful comfort. There's seldom any real sickness in the home that learns to use Syrup Pepsin at the first sign of coated tongue, fever, biliousness, headache and such troubles due to constipation. Recommended in a million homes. Sold by all druggists.

For a free trial bottle send name and address to Pepsin Syrup Company, Monticello, Illinois.

Mr. Fred Beavers is figuring on going into the hog business soon.

The many friends of Mrs. Katie Rich will be glad to learn that she is expected home from the Asheville hospital this week.

The race that never ends

BUILDING a telephone system is an undertaking that never ends. The telephone plant constructed for today's needs, must be so engineered as to have a definite place in the plans to meet the anticipated demands of the future--five, ten and even twenty years hence.

Last year, for instance, there was a gross expenditure of \$33,225,352 for additions and replacements to the Southern Bell Telephone System in the nine Southeastern States.

There was a net gain of 66,289 new telephone stations--making a total of 1,242,689 telephone stations in the nine Southeastern States. Of these 843,172 are Bell-owned, 362,308 are owned by other companies, but connected with the Bell System and 37,209 are located in farm homes.

The investment in service, December 31, 1926, was \$166,757,502, not including \$3,834,097 of construction work in progress.

To build, operate and manage this great telephone system requires the services of an army of skilled men and women whose annual payroll amounts to \$24,433,290. Another big expense was the tax bill of \$4,432,018, which was an increase of 174 per cent over the tax bill of 1920.

There was an improvement in the efficiency and scope of the service, so noticeable as to win the commendation of our customers, and the largely increased traffic was handled with greater speed and accuracy than ever before.

The presentation of these details is a continuation of our policy of taking the public fully into our confidence. It also gives us another opportunity to express the appreciation of the telephone workers for your friendly interest and co-operation.
