

LEGAL MATTERS

NORTH CAROLINA,
CHEROKEE COUNTY,
IN THE SUPERIOR COURT
H. F. NELSON
VS.

J. B. PHELPS, Trustee.
NOTICE OF SUMMONS

This cause coming on to be heard and it appearing to the court that a cause of action exists against the defendant in favor of the plaintiff for the matters stated in the affidavit in the sum of \$1100.00 and interest;

And it further appearing that the defendant is not a resident of the State of North Carolina and he cannot after due diligence be found within the State; and that the court has jurisdiction of the subject matters of the action; and that the defendant has property within the jurisdiction of the court;

And it further appearing that a warrant of attachment has been issued by the plaintiff against the defendant, against certain property in Cherokee County owned by the defendant;

Being all those certain lands described in certain deeds from the following parties:

John B. West and wife registered in Cherokee Co., Book 96, Page 132.

John A. Tatham, registered in Cherokee Co., Book 96, Page 136.

Lee Watkins and wife registered in Cherokee Co., Book 96, Page 136.

John Nelson and wife registered in Cherokee Co., Book 96, Page 140.

Harrison Nichols and wife registered in Cherokee Co., Book 96, Page 143.

Champion Fiber Co., registered in Cherokee Co., Book 96, Page 240.

It is therefore ordered considered and adjudged that the plaintiff be allowed to publish note of said summons and warrant of attachment in the Cherokee Scout, a newspaper, published in Murphy, North Carolina, for four successive weeks, giving the style of the action, the names of the parties and the purpose thereof and requiring the defendant to appear at a time and place therein mentioned to answer or demur to the plaintiff's complaint.

This the 4th day of April, 1927.

P. C. HYATT,
Clerk Superior Court, Cherokee County. (35-4t-pd)

ADMINISTRATOR'S NOTICE

Having qualified as administrator of T. C. Ledford, deceased, all persons indebted to his estate are hereby notified to come forward and make payment; and all persons having claims against said estate are notified to present them within twelve months from this date, or this notice will be pleaded in bar of same. This April 15, 1927.
J. A. PARKER, Administrator
(37-6t-pd) of T. C. Ledford, deceased

**CUT COTTON COST,
GROWER IS TOLD**

**National Fertilizer Chief
Cites Need in Farm
Short Course.**

THAT the east cotton belt acreage is rivaled by farmers west of the Mississippi river was the outstanding statement made by J. C. Pridmore, director of the Southern Division, National Fertilizer Association, in a talk for the Radio Short Course over WSB, Atlanta, a two-weeks course conducted by Sears - Roebuck Agricultural Foundation in co-operation with the Fertilizer Association.

J. C. Pridmore.

"Speaking of the economic situation prevailing over the southeastern states, it is absolutely essential for cotton growers in this territory to avail themselves of every possible means of reducing the cost of growing cotton," said Mr. Pridmore. "Let me give you a picture of the expansion of cotton acreage west of the Mississippi river, where we now have approximately as much land devoted to cotton as the whole belt had five years ago. Not only is this true, but in that section it is possible for the farmers, through the use of machinery, to cultivate large areas and, thereby, make cheaper cotton than is possible in the southeastern states.

"To meet this situation and to grow cotton in competition with the farmers west of the river it is apparent that the southeastern growers must use every possible means of making big yields per acre, which is the way to produce cotton at a low cost per pound. We not only must practice those methods known to influence yields, but fertilize more wisely than ever before. We must feed the cotton plants liberally to get a profitable harvest. The fertilizer must contain those plant foods that will meet soil deficiencies and supply crop requirements and furnish the three elements—phosphoric acid, nitrogen and potash—in proportions to constitute a balanced ration."

**"Hunger Signals"
Tell Crop Needs**

IF PLANTS like cotton, alfalfa and soy beans develop rust, they are sending out "hunger signals" for potash, was the striking statement made by R. W. Hamilton, acting chief agronomist, Clemson college, S. C. in telling how crop needs are determined in a talk for the Radio Short Course over WSB, Atlanta. This course was conducted for two weeks by the Sears-Roebuck Agricultural Foundation in co-operation with the Soil Improvement Committee of the National Fertilizer Association.

"Every farmer can learn in a general way something about the deficiencies of his soils," said Mr. Hamilton. "When his crops do not make sufficient stalk growth, and the plants have a yellowish cast, he may know the crops have not had enough ammonia. If the crops are not fruiting as they should, and if they are slow in maturing, this is evidence they need more phosphoric acid.

"Fortunately, for the southeast, there are great areas that show similar responses to fertilizers, so it is unnecessary to recommend a different fertilizer for every slight variation in the soils. Carefully conducted tests on various soils afford the only safe information on how to feed crops profitably. Recommendations can be made that are broadly applicable to the coastal plain, the Piedmont soils, mountain lands or limestone valleys. Intelligent fertilization is necessary to produce large yields and the quality of crops that will bring the greatest returns to the farmer. To accomplish this the farmer must rely largely on the recommendations of the experiment stations and agricultural colleges. Higher acre yields are essential to greater farming success in the south, and the efficient and wise use of fertilizers is one of the major factors contributing to higher acre yields."

**THE WHIPPETT
(FOUR CYLINDER STOCK CAR)**

AGAIN SMASHES ALL RECORDS

The wonderful performance of "The Whippet" was again demonstrated to the residents of Murphy through the recent speed and economy run conducted by the Asheville Overland-Knight Inc., in conjunction with E. C. Moore.

Asheville to Murphy
126.5 Miles in 2 Hours 39 Minutes
or 47 3/4 Miles Per Hour
Time Checked out 5:07 A. M.
Time Checked in 7:46 A. M.
Eastern Time

This run was officially checked by:

Commissioner of Public Safety, C. H. Bartlett, Asheville, N. C.; Mayor Frank S. Hill, Murphy, N. C.; Mr. H. C. Rogers, Manager Western Union Telegraph Co., Murphy, N. C.; Mr. A. H. Nowell, Manager Postal Telegraph Co., Asheville, N. C.; Major E. F. Jones, Asheville Citizen; M. E. Hetty, Asheville Times.

Murphy to Asheville
124.9 Miles
On 14 3/4 Qts or 33 1-3 Miles Per Gallon

"Over the mountains, Around the curves, Four Wheel Brakes Are easy on nerves".

The run was made in HIGH GEAR over some of the steepest grades and sharpest curves in Western North Carolina, proving the "WHIPPETT" possesses an over abundance of POWER and ENDURANCE—and that FOUR WHEEL BRAKES, FORCED FEED LUBRICATION, TIMKEN BEARINGS AND SNUBBERS are absolutely necessary in a 1927 automobile.
