LINDY IN CANADA

Canada put its oratorical talent into evidence on the occasion of reception to Lindy, and Lindy, himself, gave token of improvement in the direction of a public speaker, for he talks longer, more connectedly and is more direct in expression than when his hand was first forced in Paris. And always it is the "we" with him. He expressed appreciation for the cordiality of his reception in Canada "both for myself and my country." The boy steadfastly refuses to glorify himself. It is always his plane, his country or his Government that comes in for the major part of the praise. The country is now satisfied, in view of the experiences through which Lindbergh has passed, that he is absolutely fool-proof, which is but another way of saying that his head cannot be "turned." The fact that Lindy is "a fine boy" is taking stronger hold of the country all the time—Charlotte Observer.
