NEW ESSEX GIVEN WIDE RECEPTION

The new line of Essex Super-Six cars has met a nation-wide reception more favorable than that accorded any previous series in the factory's history, according to reports from distributors and dealers to the Hudson plant.

Acting on this information, the Hudson organization has launched into the largest volume of manufacturing it has ever known, so that Walter C. Witt, local Hudson-Essex dealer, is now confident that motorists here may have prompt delivery on their orders. All this year the popularity of the Essex Super-Six has been so great that there simply were not enough cars to go around, but now it is hoped that this situation will be remedied.

The orders which the Hudson organization received for Essex cars give an interesting gauge on national prosperity. Such important centers as New York City, Chicago, Philadelphia, Boston and Detroit ordered an average of twice as many Essex cars for immediately delivery as for this season a year ago; Minneapolis, Cleveland, Kansas City, Atlanta and Salt Lake City asked two-and-a-half times; Denver and San Francisco, three times; Des Moines, three and a half times, and Seattle, four times.

"As these figures from every section of the country show," said Mr. Witt "this series of Essex Super-Six cars give every indication of being the most popular and widely demanded six cylinder cars ever built."

"There is nothing surprising about this," he continued, "for the cars provide a most remarkable combination of value and attractiveness. It is no one quality or characteristic which has made Essex popular. It is rather its performance plus its appearance, plus its comfort and easy riding, plus its complete standard of finish and refinement. In all the qualities which the modern motorist requires, the Essex is outstandingly a leader."

"All this year Essex has scored success after success, but now with its many improvements there is every reason to look for the greatest triumph of all. Those who will want an Essex should in all fairness let us know at once."
