**The Evolution Of
The Modern Bottle**

Only In Recent Times Has Science Given Us the Handy, Useful Containers We Know Today

With millions of bottles in daily use as containers for all manner of products, it is hard to realize that we haven't always had them in their present variety and quantity. Yet the history of bottle making is a gradual evolution from the time when history was nothing more than tradition and C. K. Hoover, manager of the Coca-Cola Bottling Company, of Murphy, has gathered some interesting facts about this evolution.

"The first bottles," says Mr. Hoover, "were made of skins—animal skins—hair side out, and all sewed up tight, excepting one opening which was 'corked' by tying it up with a thong. Oddly enough, these skin bottles are still used in some parts of the world and I understand that down in Brazil they sometimes do their churning by filling one of these skins with cream and then dragging it over the ground behind a galloping horse.

"The ancient Cretans, as far back as 2500 B. C., had learned how to make bottles of pottery and painted them beautifully. In Egypt, excavators have found examples of rather fine glass bottles, dating from about 2000 B. C. The world has used skins, pottery, glass, stone, alabaster, ivory, bone, porcelain, bronze and even silver and gold as material for bottles. But such bottles were costly and making them was an art. It was only in recent times that processes were developed which permitted the manufacture of bottles in any desired shape in such quantities as to make them commercially practical.

"Recently, bottles are being made in special shapes for the particular use of certain manufacturers and are characteristic of the products

PATRICK

Mr. Herschel Picklesimer and wife and Mr. and Mrs. Wade Picklesimer and children were the guest of the former's parents, Mr. and Mrs. Tom Picklesimer Sunday.

Mr. W. F. Hill and little daughter, and Miss Hattie Joe Palmer and Miss Martin of Wehutt, N. C., were the guests of Mr. and Mrs. K. W. Shearer Sunday.

The school at Pleasant Hill opened Monday, August 13, with Miss Martin as teacher. We wish them a successful school term.

The school at Shearer School house is progressing nicely under the management of Miss Mae McHan.

Miss Lillie Mae Brown of Ducktown, is visiting her aunt, Mrs. Ella Burger.

Mr. S. G. Baines of Hiwassee, N. C., passed through our midst Friday enroute to Dr. G. M. Young.

Misses Buna Bryant and Mae McHan were the guests of Miss Bonnie Ledford Sunday.

Several of the Patrick folks are attending the revival services at Liberty church conducted by Rev. Dillion of Presswood. We wish them a great success.

Messrs. Arvel Williamson and Alonzo Kilpatrick have returned home from Pittsburgh, Pa., where they have been employed. Mr. Williamson will take charge of the Patrick postoffice again.

Mr. and Mrs. W. L. Coleman visited Mr. and Mrs. Bill Swanson Sunday afternoon.

Mr. and Mrs. J. N. Dobbins and family of Oak Park, N. C., were the guests of Mr. and Mrs. John Picklesimer over the week-end.

BRASSTOWN

The date for having the Sunday school standardized and of establishing the B. Y. P. U. at Brasstown Baptist church has changed from August 26-31 to November 13-23. Mr. Washburn has been called by the Sunday School Board to Spartanburg, S. C., to give the week at that time to Sunday School work.

The cream check for 31 shippers of the Brasstown cream station was \$323.23 for the month of July. This is a gain of \$4.95 over the shipment of the month of June. Some of the farmers are averaging now about one dollar a day on their cream.

they contain. One of the first was the Coea-Cola bottle. It is used all over the world for Coea-Cola and nothing else."

Mr. John Deal is beginning a new house. Mr. Deal is a very prominent citizen of Brasstown. He was once County Agent of Clay County, but is now a farmer, farming under the State plans. Mr. Deal is very cooperative, and always stands for schools and church work. We are glad that he will make his home with us on Brasstown.

Mr. Sam Carringer, Wayne Carringer, Dillard Carringer, and Everett Hall went to Graham County last Tuesday to hunt their cattle and to fish and hunt also. They report an interesting trip and a nice time while in the mountains. They camped two nights on the Bob Ball, and one night in the Indian fields. They never caught any fish. Mr. Carringer says they saw some pretty nice fish, but they were not "up on catching them." Mr. Tom Dimore, of Graham County went with them to the mountains, and while there he killed one of the largest rattlesnakes that has been found in that county in years. The snake had seventeen rattles.

**MURPHY GOLF COURSE
CLOSED TO PUBLIC**

(Continued from page 1)

The course is located on the college property just above the little village known as Jacksonville, and consists of nine holes and several ditches, often referred to by the elite of golfing as hazards.

The other day the writer was over at Young Harris and found Mr. Mattox, the business manager of the college, on the campus in knickers, just returning from the chase of the little white ball. He was rather enthusiastic about golfing, and refused to divulge his score, but did say that the record of the course was held by Prof. Worth Sharp, son of Dr. J. A. Sharp, president of the college, with a score of 31. Other enthusiasts were of the opinion that Worth was a "natural born golfer."

CULBERSON

Harriet E. Bryant, age 93 years died at the home of her daughter, Mrs. Jesse Scott Tuesday morning. Willis Ledford of route 2 died Monday.

Terry Shelton, an aged citizen died a few days ago at the home of Robert Gladsons. He was buried at Liberty.

Mr. Sam Stiles, age about 14 years, son of Mr. and Mrs. J. W. Stiles, died last week. Interment was at the Shady Grove cemetery.

Quite a number of our citizens attended court at Murphy last week. They all seem well pleased with Judge Walter E. Moore's method of conducting court.

Our school began July 31st with an enrollment of 87. Prof. W. M. Collins is principal, Mrs. Gertrude Shields and Leila Mason assistants. The same faculty we had last year. We are expecting another successful term.

Mr. and Mrs. Elmer Ellis, of Knoxville, Tenn., spent the week-end with Mr. and Mrs. Ross Ellis.

Mr. and Mrs. C. L. Stalcup left Monday for their home in Taft, Cal. Mr. Lee Keasler spent last week here with his family. He has a position at Copperhill, and was off on account of a sore arm.

Mrs. V. C. Hughes and children left Friday for McDonald, Pa., where they will spend the winter with their husband and father, who has a position there.

Dr. W. C. Mason after spending several days in Atlanta, has returned home.

Several cases of flu are reported in this section.

Mr. and Mrs. Dozier Brassell of Marietta, Ga., spent last week here with O. G. Anderson and family.

The Gambill Construction Company has completed the grade work

Par of the course is said to be about 34, and the average scores made on it run from 45 to 55.
