Through CAPITAL KEYHOLES

RING THE BELL AGAIN-The reorganized State Revenue Depart-ment hit another one over the fence for a home-run in report of collect ion for the first quarter this fiscal year. Colection for July, August and September totalled \$7,112,562.98 representing a gain of \$2,678,400.21 more iron men tha were gathered together during the same quarter last The percentage increase for the quarter was 62.34 while a gain of 217 percent was registered in the month of September. That's good news to Revenue Commissioner A. J. Maxwell who has heard that the Legislature will seek to make his post elective in-tead of appointive, and his asist-ant Dr. M. C. S. Noble who, has heard rumbling of coming attacks on his position next January. Both men will be well fortified with figuers if at-tempts are made to get them down on the carpet.

BOYS, GET THE VOTES-Now that the battle on the textile front is the State Democratic organizat ion has opened State headquarters in Raleigh and is all set to scrap the Republicans for a couple of moons. Cutler Moore, Lumberton and Raleigh insurance business man, is the new secretary to succeed John Bright Hill, port collector at Wilmington. J. Wal-lace Winborne, Committee Chairman of Marion, and Mrs. Charles W. Til-

* | lett, Jr., of Charlotte, are in town cratching their hands on how to get out a big vote next month in the ab-sence of State-wide contests of major interest. The old bunk mills of both parties will be grading merrily for some weeks.

PULLED BONER-Many politicians coming into Raleigh from over the State express the opinion that Congressman R. L. Doughton, considered a 1936 candidate for Governor pulled a boner when he telegraphed Francis J. Gorman, textile strike leader, that he had no "infulence" with the State administration in the matter of using troops in troubled areas. Gorman termed the Doughter telegraphe man termed the Doughton telegram "favorable" and in Raleigh it was interpreted as a bid for the organized labor vote but some hair splitting politicians are of the opinion that the Congressman didn't expect the mesage to be published.

HOW'S YOUR ROAD?-Members of the State Highway and Public Works Commission estimate "conser-vatively" that it will require upwards of \$2,000,000 to "restore" old county road or secondary State system to the condition they were in when the Legislature ham-strung expenditures two years ago. If the next Legislature divers highway funds the State will suffer a \$1,000,000 "penalty" in federal funds each year of the coming biennium. With all the varied and sundry demands for diversion, demand for purchase of toll bridges and lowering of the license tax is not impossible that North Carolina may be-

MORE TROUBLE-Federal relief officials are to withdraw all assistance from States not sharing in the costs. The State of North Carolina is not schools and other functions of State and now it will have the added task of raising money for relief.

VINDICATED-Governor Ehringhaus State Parole Commissioner Edwin M. Gill and the courts were vindicated of charges of prejudice when Emanual (Spice) Bittings, Person county Neg-ro went to his death in the electric chair. It has been charged that Spice did not get a fair trial and that his family was intimidated. As he took his seat in the chair Bittings said, "It's not the court's fault—it's nobody's fault but my own that I am here." He should have known.

IN THE COLD-State departmental employes are wondering why it is that nobody seems to realize their reduced financial status. On every hand speakers and writers are urging in-creased pay for school teachers but few voices are raised in behalf of the remainder of the fired help. Just to give you an idea of how things stand the CWA furnished a part time stenographer to one State official and paid her more than his full time secretary

UP THE LADDER-By reason of deaths and primary defeats Frank Hancock the up-and-coming young Congressman from the Fifth North Carolina District, will be number three man on the highly impotant House Banking and Currency Committee of Banking and Currency Committee of the next Congress. Hancock, one of the young and most aggresive mem-hers of the North Carolina delegation is known in Washington as more Rooseveltian in his idea than even the President. Every now and then his name bobs up in speculation as a po-tential candidate for Governor or the senate.

A LOT OF GRUB-The prison Division of the State Highway and Public Works Commission, under the direction of Jack Roach, among other
