

# Murphy High School

## Seventh Grade Exams To Be Held

Zane Davis  
All students that expect to enter high school next year should be at Murphy High School on March 20 to take the examinations. No student will be allowed to enter high school next year who has not had this examination unless a valid reason for not doing so can be presented. The High school students are asked to remain at home as the transportation system will be taxed to haul those who are to take the examinations.

## MAGAZINES WANTED

Zane Davis  
We wish those who have contributed magazines to Murphy High school to know that we appreciate them. They have been of great service to the high school students. Our supply is exhausted now however and if anyone has old magazines, we will be glad to call for them if you will let us know.

## SCHOOL MASTER'S CLUB MEETS

ALWAYS SAFE  
ALWAYS COMFORTABLE  
ALWAYS DEPENDABLE

from Cherokee, Clay and Graham Counties were present.

Mr. C. F. Carroll, Jr., superintendent of the Swain County schools was the principal speaker of the evening. His Subject was "The work of the North Carolina Educational Association."

During this meeting arrangements were made for a basketball tournament to be held at Andrews. Arrangements were also made for track meet to be held at Murphy March 27.

Dinner was prepared and served by the Home Economics Department of the Andrews High school.

## SCHOLARSHIP

Zane Davis  
**Colorado School of Mines.** The Colorado School of mines, Golden, Colorado offers a scholarship to North Carolina, upon the approval of the State Superintendent of Public Instruction to some young man graduating from a standard high school, and showing exceptional proficiency in the sciences. This scholarship is worth \$250.00 per year and lasts for four years. It will be necessary for the applicant to meet the entrance requirement of the institution. About April 15, from the applicants of high school graduates, one person and an alternate will be selected and be recommended to Colorado School of mines.

**Michigan College of Mining.** The Michigan offers one four year scholarship to North Carolina. This scholarship remits matriculation fee (\$250.00) and tuition fee (\$50.00) for a regular four year engineering course. The State Superintendent of Public Instruction has authority to make this selection.

**Peabody College for Teachers.** Peabody college at Nashville, Tennessee has made available four scholarship for the summer school of 1935. The value of each scholarship is \$25.00, and they are open for teachers actually engaged in the work in North Carolina who are college graduates and who will agree to spend the entire twelve weeks at the institution. Upon request, an application blank will be sent to any teacher desiring consideration by the State Superintendent of Public Instruction.

## REPORTER'S CLUB

By Kathryn Johnson  
The Reporters' club met on Monday Miss Hatchcock gave to the some interesting information on "The Copy-reader's Duties as a Policeman" and "Newspaper Style."

## HIGH SCHOOL CHAPEL EXERCISE

On Tuesday, March 5, Mr. Baucom pastor of the First Baptist church of Murphy spoke to the student body. His talk was based on the opportunity in life; the use of these opportunities; and the making of opportunity.

After Mr. Baucom's talk Mr. Bueck made several announcements. One of these concerned the Declamation contest which has heretofore been a part of the commencement activities. He said in order to be effective each contestant should do his best. Mr. Bueck then called for a vote of the student body on the advisability of having the contest this year. The students voted negatively, so the contest will be dispensed with.

## DRASTIC CUT IN AMOUNT ASKED FOR SCHOOL

Zane Davis  
The joint appropriation Committee's tentative recommendation for the school is \$20,800,000 for the first year of the biennium year. Superintendent Erwin had requested \$22,000,000 for each year.

Mr. Erwin is not dropping the fight. Many representatives have assured him that they will carry the fight for \$22,000,000 per year to the floor. The backing of the people at home will be needed by these men to bring this effort to a successful conclusion. Every item in Mr. Erwin's budget is for the best interest of the children. This makes it all the more necessary that the people work for the restoration of the items cut by the appropriations committee, because the cuts mentioned represent field of expenditure that directly affect the needs and welfare of every child.

## "THE NEW DEAL"

Dick Mauney  
On Friday, March 1, Mr. Bueck called the High school together and presented to them "The New Deal." This is merely a new way of grading. Students will not be graded on their scholastic achievement alone. First comes Character and under this is Attention, interest, enthusiasm, Attitude and initiative. Second in determining grade is, Manner and under this in conduct and consideration and respect for the rights of others; and third is one's scholastic achievement.

Under this comes accomplishment or improvement.

On basis of grades is effort of the student. This is going to do away with monthly tests.

## LATIN NEWS

By Ruth Hickey  
The Latin Department wishes to express publicly its appreciation to the local theatre management for six passes to the picture "Cleoptra", March 20th and 21st. Two passes will be given to each of the three Latin classes. The two students from each class making the highest average for the next two weeks will be the winners of the free tickets.

## FORMER MURPHY STUDENT MAKES GOOD AT BREVARD COLLEGE

By Zane Davis  
A report was sent to Mr. Bueck of the record that Miss Grace Teague (Continued on back page)

## When Your Head Feels "Stuffy" . .

Apply Va-tro-nol... just a few drops.

Va-tro-nol penetrates deep into the nasal passages, reduces swollen membranes, clears away clogging mucus, brings welcome relief.

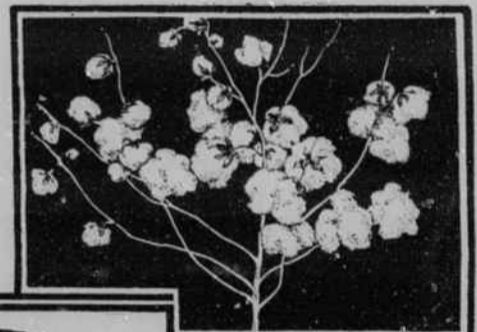

Two generous sizes... 30¢ and 50¢.

USED IN TIME HELPS PREVENT MANY COLDS

## TOBACCO

V-C Mixtures are chock-full of cured magnesia. Plants can instantly "dunk" it up. This is to avert danger from sand-drown or frog-eye. Record yields and record-priced leaf result.

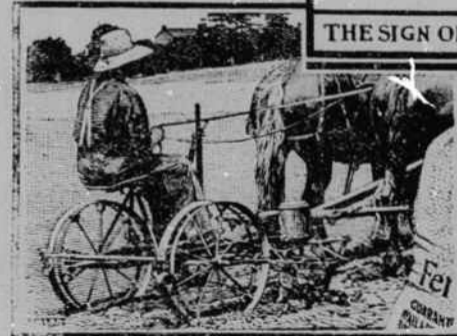

## COTTON

We offer mixtures rich in nitrogen and many materials. Generous helpings of tobacco stems are used in some of our brands for cotton. They contain organic nitrogen and potash and add humus. Our tobacco stems are steamed—sterilized.

## THE SIGN OF A GOOD DEALER

## CORN

Corn needs a quick start and even feeding to keep it green 'til frost. The many varied forms of Nitrogen, Phosphoric Acid and Potash in V-C Fertilizers nourish the plants constantly. Being non-acid forming helps a lot, for corn dislikes acid soil.

## TRUCK

Being "early to market" is sure if you use our mixtures for truck. Available nitrogen for quick starting in cool weather. Potash to build sturdy stalks and superphosphate to plump out the fruit. "Many meals, bigger yields."

**B**BETTER fertilizers than V-C have never been mixed. In them, are the choicest, richest plant-foods of the earth mixed by tested formulas. Did you know that for years, we sent agronomists into many states? On different farms, varied crops were grown. One mixture was pitted against another. By actual farm tests, we learned the best ways to blend them for each of the many different types of soil. We checked our experiences with those of experiment stations.

Today, V-C Fertilizers are better than ever. For science never halts. Always, men are finding ways to improve things.

These mixtures are non-acid forming. They cannot make your land acid. Instead, they keep the soil sweet and productive. We add magnesia, the "fourth plant-food." Demand V-C Non-Acid Forming Fertilizers. Be content with nothing less. Better brands have never been mixed.
