# The Social Security Act **Its Purposes and Benefits**

Journal Thusday: Journal Thusday: With the hust putpless of the So-tal second the unit of the President in caring for the aged poor, prompt-at thirty-six States of the Union to dort the pension system—this be, dort the pension system—this be. Curtis, the is builded, first, to set up at fill be them of caring for aged tersons new detendent on public targe groups of new independent workers the connor is builded age pension. By the atumn of 1934 the number had grown to twenty, since when ince have been added. Most of those twelve not adopting it, undoubtedly, will soon take the needful steps to procure federal as-trad workers the economic maranes or one nge or establishing an annuity sys-tem under which employes and em-physics alike will contribute regular-interval. by to a fund from which the workers add draw benefits when they reach the are of skty-five; thirdly, to in-angurate a system of unen, layment instrance by means of which a com-ren-ation can be paid to workers in times of d pression, or during sheck times of d pression, or during sheck times indicated and fourthly,

min's is done, masmuch as no into effect gradually, be by a year or more hence. True

major retion, which allots federal contributions up to fifteen dollars a month to match State pensions for aged and indigent men and women, there is general agreement among practical students of such problems. By actual test the old age pension plan his proved to be, not only more decent and humane, but also less exwhich it is displacing. According to

A match and constraints and fund out it is the line of the land contraints dallars in Nevals a work hand out to the second to the line of the land to the second second second second second second to the second second second second to the second second second to the second second to the second to the second second to the second

ariods, when they are laid off and re thid no other job; and fourthly, particle cortain sorely needed add-welfare and public-health ser-es, including aid to depindent athers and children. To these broad curpenes, we say, To these broad curpenes, we say, remeding loyal employees; years ago progressive conjorations began to ap-ly, in one way or another, the prin-ciples of the law which President Roosevelt has just signed. Group in-sciance and homorable pensions for strance and honorable pensions for neo and women grown old and in-firm in a company's service were thus adopted. "The first grants of such pensions," said the National Indust-init Conference Board is 1981, "were made from motives of pur-philarthropy. Later the concept of privation for long service was advanced as a justification for relignment alas a justification for retirement al-lowaness. Then it was seen that the rension plan (and also liberal group entropy a year of more hence. They refer to the of the Storal Security law de-site above all things that it shall b-just to every interest concerned, for otherwise it would turn out to be unknewable and would fall by its own folly. As to the soundness of its first major metion, which allots federal colicy from the standpoint of operating economy".

Such was the judgment of the most enlightened business leadership long before the New Deal undertook to

ranslate these ideas into the broad-or terms of national interest. If the Social Scenity Act had come a de-ade earlier, the distresses which followed the crisis of 1929 would have which een greatly aitigated and would use been far Less costly both to spayers and to business. For as Fiesident Roosevelt declared, . in the line of the person and by any State is been to be a state of the backward of the person and they any State is been to be a state of the backward of the person of the backward of the person of the backward of the state of the size of the backward of the backward of the backward of the state of the backward of the backward of the backward of the state of the backward of the backward of the backward of the state of the backward of the backward of the backward of the state of the backward of the backward of the backward of the state of the backward of the backward of the backward of the backward of the state of the backward of the

## How Cardui Helps Women To Build Up

Cardul stimulates the appetite and Cardul stimulates the appetite and improves digestion, helping women to get more strength from the food they eat. As nourishment is improved, strength is built up, certain functional pains go away and women praise Cardui for helping them back to good health. . . Mrs. C. E. Ratilif, of Hinton, W. Va., writes: "After the birth of my last baby, I did not seem to get my strength back. I took Cardui sgain and was soon sound and well. I have gain and was soon sound and well. I have sterift cardui benefited them. If it does not been fit YOU, consult a physician.

It costs money to be sick. You see it directly if your pay envelope is short. You the lose out on some important work if you live on a farm or if you are one of the few who are not docked for lost time. You can't afford to show up on the job unless you are feeling fit. The boss wants results-not excuses.

How many times do Gas on Stomach, Head-ache, Sour Stomach, "That Tired Feeling," That "Morning After" Feeling, Neuralgic, Rheumatic, Sciatic, Muscular or Periodic Pains keep you at home or interfere with your doing a full day's work?

All these troubles are caused or made worse by too much acid in your body. To correct this condition take

# ALKA-SELTZER

The New Pain Relieving, Alkalizing, Effervescent Tablet.

It is called Alka-Seltzer because it makes a sparkling alkaline drink, and as it contains an analgesic (Acetyl-Salicylate) it first relieves the pain of everyday ailments and then by restoring the alkaline balance corrects the cause when due to excess acid. Alka-Seltzer is pleasant to take, effective, non-laxative.

Why don't you try it? Get a drink at your drug store soda fountain for a nickel. Buy a package for home use.
