

MURPHY SCHOOL NEWS

THE REPORTER'S CLUB

By Winifred Townson

This year the reporters' club will be made up of seniors, with Mrs. Harbeck as director. Twenty-five seniors have indicated their interest in writing for the newspaper and sixteen of these have been given definite assignments. These seniors will be actual representatives of various phases of school life. In the near future the club will be organized and an editor-in-chief elected.

The purpose of our club is to give publicity to school affairs. We will greatly appreciate the cooperation of home-room teachers, class teachers, athletic directors and club sponsors.

Let us all take part in informing the public of what we are doing.

FEDERAL AID FOR HIGH SCHOOL STUDENTS

By Ellen C. Axley

The N. Y. A. is offering this year federal aid for worthy, needy students below college level. The provisions made are the following:

(1) The number aided must be relatively small. (2) Each person should be scholastically worthy. (3) And should be unable to attend school without such aid. (4) Only boys and girls between the ages of sixteen and twenty-five years are eligible. (5) Every person entitled to federal aid must be a member of a family which was on relief in May 1935 and which is now eligible for relief or work relief.

STUDENTS REQUESTED TO USE SACHELS FOR BOOKS

Mr. Bueck is making a general campaign for the use of book satchels in both the high school and the grammar grades. The reasons are these: Some of the text books are rented and if they are unreasonably damaged at the close of the year the student will be required to pay full price for them. The books are expensive and when stepped on or dropped in the mud the covers are ruined. Satchels will protect the books against such wear. Even if the book is owned by the pupil who wishes to sell it next year, the sale price will be raised if the book is in good condition.

Satchels can be bought for ten cents or a quarter, or can be made at home more cheaply. Straps can also be used.

CLEAN UP CAMPAIGN

Each week beginning Sept. 16 one class will be responsible for the appearance of the campus. During the week of Sept. 16-21 the Seniors do their best to keep the High School building and campus in order; while in the grammar grades the seventh grade is responsible. The object is to train the students not to throw paper in any public place.

BOOK RENTAL REQUIREMENTS

By Ellen C. Axley

The state has made it possible for some of the text-books to be rented this year, for only one-third of the retail price. The following requirements are made:

(1) Only the pupils name and no other marks will be made in the book. (2) At the end of the year the book will be returned in good condition. If the book is unreasonably damaged or lost the student will pay full price for it. Each student signs a paper to this effect.

GLEE CLUB

Kathleen Standridge

Miss Fuller called a meeting of the girls Glee club Monday, for tryouts for the different parts.

Because of so many new members tryouts will be continued at the next meeting.

Because of a shortage of funds the county court of St. Louis cannot vote to defer payment of August salaries to county employees. Sufficient money was found, however, to pay the salaries of the three members of the county court. And is everybody happy?

MAYBE A SMALL, UNIMPORTANT ITEM TO YOU BUT IT MEANS THE WORLD AND ALL TO YOUR CHILDREN

No home should be without complete, and correct lighting. A few cents spent in installing adequate correct-vision lamps will save your children's eyes, especially in the evening when they are doing their school work.

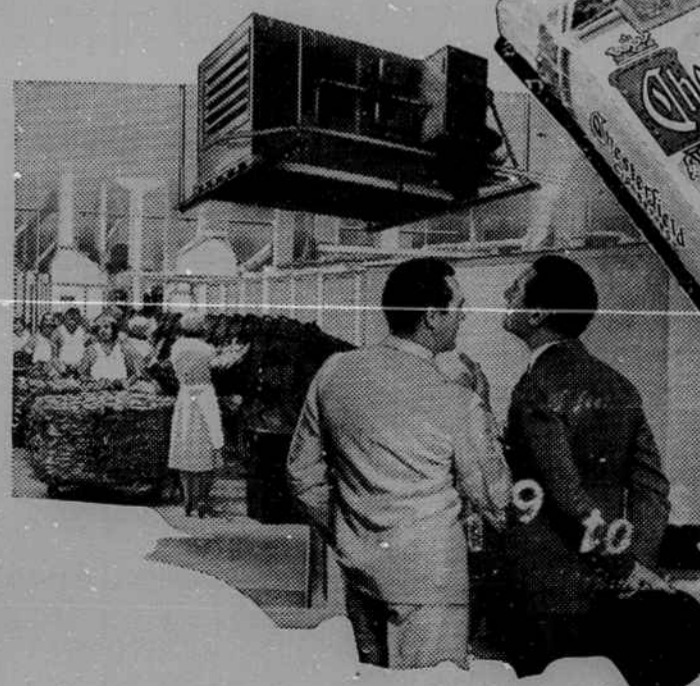

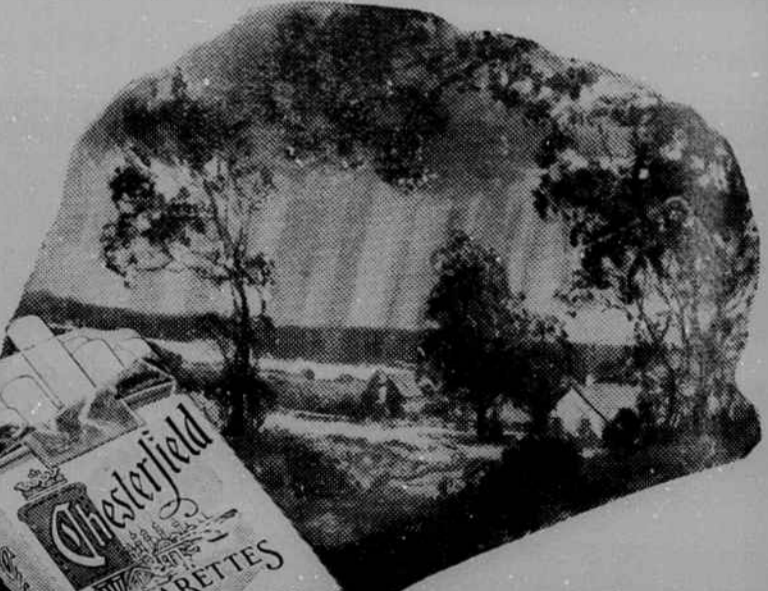

Don't hamper them with incorrect and poor lighting as the cost is so small.

And we carry many other electrical devices for the home that will add greatly to your convenience and save you money the year around.

Stop in our show rooms today and look over the many bargains here.

It's always fair weather where we make Chesterfields

"Weather machines" in the Chesterfield factories keep the heat and moisture at a steady even level . . .

This control of temperature and humidity helps to retain the full flavor and aroma of the tobaccos you smoke in Chesterfields.

And it has a great deal to do with providing the proper working conditions for the employes who handle the tobaccos and operate the Chesterfield machines.

Mild ripe tobaccos and modern up-to-date factories with proper control of temperature and humidity help to make Chesterfield . . .
