Agent Says Cherokee County Ladies Seem Very Enthusiastic

Miss Pauline Lentz, new Cherokee and Graham counties demonstration agent, has been active contacting women throughout Cherokee county the past week and has arranged a number of meetings, she reported Wednesday. Other meetings will be scheduled in the near future, she added.

Friday she will meet with the Peachtree Health club at the Peachtree school house at 2 o'clock. Other meetings arranged are: Valleytown Wednesday at 2 o'clock, Tomotla school house Thursday at 3 o'clock, and Midway Friday at 2 o'clock. Everyone is urged to be present at the meetings.

The purpose of these assemblies, she explained, was to organize in the various sections of the county and discuss with the ladies their problems and draw up projects along the lines that were most needy and would be of greatest benefit. Later, if sufficient interest is aroused, she will go into different home projects more in detail, she said.

"Most of the women I have met seem very enthusiastic," she added, "I have talked to many of them at the fair and they all seem very much interested."

About the middle of the month she declared she would go to Graham county to carry on her work in that section.

Miss Sallie Brooks, of Raleigh, assistant food and nutrition specialist, will be here Monday to confer with Miss Lentz and discuss her plans for the fall and 1936.

SURVEY WILL BE MADE FOR RURAL ELECTRIFICATION

Field men began work in Western North Carolina Counties this week where citizens had submitted the application from and preliminary survey for electric line extension, according to Mr. C. W. Burton, consulting engineer of the N. C. Rural Electrification Authority, who was in Asheville Monday.

Mr. Burton stated that the field men will give first attention to those communities where the citizens have applied for an application form, and have sent it in properly filled in with a list of people desiring electric current. He stated that as the Federal funds covering this field work for a very limited time, that communities which do not file for application forms immediately, may not be able to have a visit from the field men in the near future. When the field men have certified the preliminary survey forms sent in by the citizens of the community, the N. C. Rural Electrification Authority will be ready to help the citizens to secure electric line service.

Application and preliminary survey forms have been mailed to all county agents, or they may be obtained directly from George M. Stephens, western member of the state board, care of the Farmers Federation, Asheville, N. C.

SUCCESSFUL FAIR CLOSES ON SATURDAY

Tenth Annual Exhibition Said To Be Best Ever Held Here

What is said to be the finest fair ever held in Cherokee county closed its doors here Saturday night after 4 days in which the best products of the county were put on exhibition and a brilliant midway attraction drew thousands of people from Cherokee and surrounding counties.

In the opinion of the officials of the association, the Tenth Annual fair eclipsed all others from every standpoint and the interest that was manifested in it assures even a better one next year.

The complete list of awards was not available Wednesday but will be ready for publication next week, A. Q. Ketter, Cherokee county agent, who took a large part in the presentation of the show, said.

The 1935 fair marked the tenth exposition under the direction of W. M. Fain, as president of the Cherokee County Fair association, and T. J. Bristol and E. P. Hawkins, as vice-presidents, who have generously given their services during these years without compensation for the benefit of the county.

The association sponsors the fair and finances it without costing the county or any other official body one cent, Mr. Fain said, and any reserve that is left over when all bills connected with the fair are paid goes for improvements to the grounds and to pay \$1100 of back premiums that were left when the present association took over the work.

Mr. Fain also declared that due to the failing of a bank several years ago the body was unable to pay the premiums although it had the money and that the association hopes to clear even that debt soon.

This year additional expenditures were made on the fair building and for the erection of a house for a keeper of the grounds.

Since the incorporation of the association Tom Axley has served as secretary of the organization and F. O. Christopher, local attorney, resigned as treasurer last year and the appointment of John Davidson to that post followed.

Much credit has gone out to the association for the time and work they have given the county and the four day exhibition requires the attention of the directors throughout the year which they generously give, as the Negro says, "free gratis for nothin'."

The association extends its thanks to everyone who took a part in the fair, helped it to be the success it turned out to be, and to the judges for their valuable assistance and cooperation.
