RFC Loans \$25,000 To Residents Of Cherokee

Durham, N. C., Oct. 8.—The Reconstruction Finance Corporation during the period February 2, 1932 to June 30, 1936 distributed the sum of \$25,000 in Cherokee County, according to information received by

Robert M. Gantt, State Director for the National Emergency Council for North Carolina

Disbursements in North Carolina aggregated \$46,892,167.80, not including amounts that went to various government agencies, or relief grants to the State of North Carolina as authorized under the Federal Emergency Relief Act of 1933.

Never Before Could You Telephone "Long Distance" So Cheaply as Now

The latest long distance rate reduction, effective September 1, was the seventh reduction voluntarily made by the Company in the past ten years, and will save telephone users many millions of dollars.

You can now talk on station-to-station service a distance of 50 miles for as little as 35¢ or 1000 miles for \$1.85 and greater or less distances at a correspondingly low cost.

Telephoning is the quick, easy, economical and personal way to keep in close touch with out-of-town relatives and friends. There is no more satisfactory and pleasing way to extend sympathy or congratulations, greetings or invitations to out-of-town friends and acquaintances, than by long distance telephone.

Isn't there someone, somewhere, father, mother, brother, sister or friend who would be made happier by hearing your voice and talking to you tonight? Ask "Long Distance" for rates.

QUESTIONS THAT ARE ASKED ABOUT BANKING

"Could all depositors get their money at once?"

IN normal times a bank puts its depositors' money to active business use for the benefit of depositors, the community and the bank. A reasonable amount is kept on hand for customers' daily business needs.

A bank is not simply a storage vault for money. Consequently it would ordinarily be impossible for all depositors to withdraw their money at one time, if they desired. It takes time to convert all of the assets of a bank into cash. Electric companies, for instance, would find it difficult to supply the simultaneous demand if every customer turned on all switches at the same time. No theatre could hold all patrons if they decided to go at the same time.

This bank, like other banking institutions of the country, is able to serve all customers on the basis of normal daily withdrawals and deposits.

NEW SAFETY FOR BABIES

Mother, most hospitals now protect their babies against germs and skin-infection by rubbing Mennen Antiseptic Oil all over the baby's body—every day. This keeps the baby's skin smoother, softer, lovelier and SAFER. So, mother, do as hospitals do, as doctors recommend. Give your baby a safety-rub with Mennen Antiseptic Oil daily thruout his diaper-days. See your druggist.
