Left-Handers

Dr. H. H. Newman of Chicago university, biologist, studied the hands of 100 students-50 of each sex-and found first that there are all grades of left handedness and second that left-handers not only can use their right hand better than right-handers can use their left, but that the palm and finger prints on left-handers are more like their right than the left of right-handers is like their right.

Throwing Out Kings

Italy expects a new heir to the throne in January. If it is a boy, and lives, and noth-ing happens to prevent, it will succeed in time its grandfather, the present King the present King. What rate Lloyds would charge to guarantee the succes-sion is uncertain. Mussolini's rise from extreme socialism, the trenches and the hospital hospital main-tained the House Arthur Brisbane

of Savoy in nom-inal power. "After Mussolini what?" is one of many European questions.

Mr. Hull, Secretary of State, sailed for South America six hours late, to help bring peace to the world, or at least help set a good example on these two continents. He left a pier "double-picketed"; the strike tied up his ship, which had to bring six non-striking sea-men out to the secretary's boat, waiting patiently near the Statue of Liberty of Liberty.

After peace is brought to the world, the next step will be to bring peace to United States in-dustry. You may read some day: dustry. You may read some day: "The House, Senate and Supreme Court could not meet; the Presi-dent has moved over to the New Willard; the Amalgamated Order of Furnace Tenders let all the fires go out, while, in sympathy, the Electric union turned off all lights and the elevator men said sympathetically, 'No elevators.'"

There must be, for public ne-cessities, including shipping that carries passengers and mails, some better plan than the strike plan, and one that would be just to workers.

This country makes some things better than any other country-auto-mobiles, and moving pictures, for instance-and Englishmen know it. The late Irving Thalberg, vice pres-ident of Metro-Goldwyn-Mayer, left 35,000 shares of Loew moving picture stock. As soon as the large block was offered for sale, English-men bought it all, by trans-At-lantic telephone, for about \$2,200,000.

Nicholas Schenck, head of Loew's and its biggest stockholder, missed an opportunity, and knows it. Every-body across the ocean knows that this country is one NOT to be sold short, regardless of passing troubles.

It is said the royal tombs re-served for Spanish kings have been violated, some or all of the bodies thrown out. "New Imperialist War" Coming, Says Voroshiloff

THAT a new "imperialist" war is coming soon was the opinion expressed by Soviet Defense Com-missar Klementi E. Voroshiloff in an address at the 19th annual celebra-

Flees From Madrid

WHILE the Fascist insurgents were smashing their way into Madrid and hurling shells among its chief buildings, the Socialist gov-ernment of Spain, headed by Prem-ier Fancisco Largo Caballero, fled from the capital and set itself up in Valencia on the Mediterranean coast. The capture of Mediterranean coast. The capture of Madrid by the rebels seemed certain and this, it was believed, would be followed by recognition of the Fascist gov-ernment by several powers, includ-ing Portugal and Italy and perhaps Germany. The first nation to ac-cord this recognition was the Cen-tral American penublic of Schweder tral American republic of Salvador. It is not to be assumed that this would end the civil war, im-mediately or soon. Caballero, it was reported, believed the loyalists could best continue the struggle from the south, and it was claimed from the south, and it was claimed they had strong concentrations at Valencia, Cartegena, Alicante and Albacete. Moreover, there were in-dications that they would soon re-ceive open aid from Russia and perhaps France. Leon Blum, the French premier, told a Socialist meeting that he was ready to scrap the non-intervention pact and help Caballero if Great Britain would join in such action. This caused consternation a mong the British statesmen.

Fighting in the suburbs of Madrid was continuous and bloody. The casualties on both sides were heavy, was and the Fascist bombardment by artillery and planes killed and wounded hundreds in the center of the city. The Socialist defenders had been ordered to hold their posts regardless of losses, and they fought bravely and stubbornly. fought bravely and stubbornly.

Navy and Army Growth Noted in Reports ECRETARY of the Navy Claude S ECRETARY of the Navy Claude Swanson, who it is believed may retire from the cabinet, made his annual report to the President show-ing that the navy had made con-siderable progress in its program to build up to full treaty strength. At the end of the 1936 fiscal year last June 30, the secretary said, the navy had under construction 79 vessels. Further, the 1937 appropri-ations act provided for the building of 18 vessels as replacements for S of 18 vessels as replacements for over-age ships and for the beginning of construction in 1937 of two battleships.

Peace Move in Labor Federation Fails

F OR a day or two it seemed that Γ the two factions in the American Federation of Labor might get together before the convention open-ing in Tampa on November 16. But plans for a conference between President William Green and John L. Lewis, leader of the C. I. O., fell through when the former said he had no power to reinstate the sus-pended unions. Lewis and his chief

supporters held a two day meeting in Pittsburgh, after which he said: "The convention will determine the future of the C. I. O. If it supports the arbitrary and insolent stituted of the convention attitude of the executive council, that will be one thing. If it shows a

disposition to give consideration of the fixed principles of the C. I. O., that will be another thing." Mr. Lewis didn't say so explicitly, but "another thing" will be a war for domination of American labor.

Ship Workers' Strike May Be Settled

THROUGH the efforts of Edward F. McGrady, assistant secre-tary of labor and the department's time workers that time workers that

of the shipping on the Pacific, Atlantic and Gulf coasts may be settled amicably. Negotiations be-tween the shipownand the union leaders were re-sumed in San Francisco, and in Wash-ington Secretary Perkins said she E.F. McGrady was hopeful that a just agreement

would be reached. On the Pacific coast the strikers had already consented to ease the plight of stranded passengers and release perishable cargoes. The joint strike committee recommended that their membership return strike-bound vessels to home ports. This promised relief for 600 stranded passengers and 900 strikers in Honolulu as well as for hundreds of mari-time men idle in Atlantic and gulf ports.

Wage Increases and Dividends Declared

M AJOR producers of steel, led by the Carnegie-Illinois Steel corporation, largest subsidiary of United States Steel, and the Colum-bia Steel company, west coast member of the same group, announced wage increases averaging 10 per cent and in some cases running as high as 25 per cent, which will add about \$80,000,000 a year to the in-dustry's payroll. In most instances the increases were to take effect November 16. According to compi-lations of the American Iron and Steel institute they will affect 526,-700 employees throughout the country

Committees acting for employees at more than a dozen plants rejected the offer, demanding higher pay. Negotiations in these cases are therefore continued.
