**RESULTS CITED IN TVA REPORT ON ITS PROGRAM**

**Claims Mass Production May Open Up New Economic Era**

WASHINGTON, Jan. 7.—The Tennessee Valley Authority contended Monday the federal government had proved that mass consumption of electricity may open up a new economic era.

The annual report of the Authority's board of directors also said private companies had been able to increase their profits by following the same experiments begun by TVA.

This was in effect, the answer of the Authority to the private utilities that have started suits to halt certain public power projects initiated in the valley.

"Within the space of three years the mass consumption program (of TVA) has gone far enough to have important meaning, not merely for the Tennessee region, but for the entire United States," Chairman Arthur E. Morgan and his associates reported.

These results are based not only upon the experience of the Authority alone but on that of privately owned utilities which have cut their rates and entered upon a program of wider use. The essential fact is that the vicious circle of high rates and low use is being broken, in the area of privately owned power as well as in that which is owned by local public agencies.

The board said gross revenue from TVA power increased about 100 per cent in the fiscal year ending in June, 1936, to 1,170,000 kilowatt hours.

The Authority also contended the demand for power was increasing so fast it soon will exceed the supply.

It cited several communities using TVA power, and lowering their rates about 50 per cent. These communities, it said, had also increased the use of electricity by 88 to 267 per cent, and earned "a margin above aggregate costs" after including taxes in the cost figure.

As for private companies, the TVA said three Commonwealth and Southern Utility neighbors of TVA had cut rates 25 to 37 per cent and had increased their gross earnings by 10 per cent.

Referring to suits filed against the Authority, the board said the expense had been heavy, adding:

"A consideration of the markets affected (by these suits) will suggest the extent to which the people of the Tennessee valley region are being denied by such suits of service for which they have expressed a willingness to contract."

**READS CHARACTER BY SIZE AND SHAPE OF A GIRL'S LEGS**

HOLLYWOOD, Jan. 7.—Clarence Sinclair Bull reads character by the size and shape of a girl's legs.

Two million legs, Bull estimates have passed before his camera in the twelve years he has been portrait photographer at a major film studio.

From his wealth of experience, he has picked up hints for judging feminine nature by the pedal extremities. They include:

Long, slender, graceful legs—nervous, restless, impulsive and sure of herself.

Evenly developed legs—calmness, sturdiness of character and a decisive mind.

Legs midway between bulkiness and slenderness, with dimpled knees—outdoor type, active in athletics, pleasant disposition and withal a homemaker.

The Rev. G. Brown, Negro, of Washington, D. C. preached a sermon of 88,794 words which took 12 hours and 10 minutes for delivery.

Bill Bryan of San Antonio, Tex., has worn his hair in two 14 inch braids since childhood because three times when his hair was cut short he lost his eyesight.

Miss Tommie Coopinger a member of the Stecoah school faculty has returned to take up her duties.

Mr. D. M. Reese was the dinner guest on Christmas eve of Mr. Bascomb Carroll.

Rev. J. N. Lee left Tuesday morning of this week to visit relatives in Atlanta, Savannah, Brunswick and other points in Georgia. He expects to return to Murphy sometime the last of the month, not later than the 30th. He is undecided where his future home will be.

There will be no evening service at the Presbyterian Church Sunday evening as the pastor will fill his appointment in Robinsville.

**Jesse Owens Outruns Race Horse in Cuba**

HAVANA, Cuba, Jan. 7.—Jesse Owens, Cleveland negro who won four Olympic gold medals for his Olympic sprinting and broad jumping exploits, Friday beat a race horse by six yards in a special 100-yard dash featuring the opening of Cuba's first international sports week. Owens was clocked in 9.9 seconds, half a second behind the world record.

Owens was spotted a 40-yard handicap by the race horse, Julio Macaw, a five year old bay gelding. Later, his winning margin was estimated variously from 15 to 20 yards.

The Negro star's manager has announced that new novel racing contests were being arranged in which Owens would race against dogs and ice skaters among other things.

**Old Man Upset Has Big Day New Years**

Upsets marked and marred almost all gridiron classics for New Year's day as betting odds took a terrific licking.

Starting with the all-famous Rose Bowl Game the Pitt Panthers took the Washington State University into camp with the greatest of ease to lead a long string of upsets and thrilling games.

The experts are still groggy from trying to figure out New Year's scores. Pitt took Washington with a 21-0 score; Santa Clara won from L. S. U. by 21-14; Villanova let Auburn down with a 7-7 tie; Mississippi State was carried away on the bare margin of one point, 13-12; however T. C. U. held up their old original colors by whipping Marquette 16-6.

Outside of the bowls the Eastern All-Stars did what they very seldom fail to do and licked the West with a score of 3-0.

Even in the old home town the betters felt the jar of not catching on in time to call off sound bets that finally turned out to foolish fancies.

All in all it just goes to show that you never can tell.

Arrested for breaking a window, Bart Flynn of Chicago admitted to police that after throwing a brick through a window he would apply for the job of putting in a new one.

Three weeks after R. A. Heitsman of Baraboo, Wis., had taken a cat from her kittens and presented it to a friend living 35 miles away, the cat returned to the Heitsman home.

**Distressed Debtors Referred To County RR Supervisors**

**FARM DEBT ADJUSTMENT IS AVAILABLE TO ALL WHO NEED IT, MR. SHIELDS SAYS.**

Mr. John Shields, County Supervisor in charge of the Rural Rehabilitation Program of the Resettlement Administration in Cherokee County feels that there may be farmers in this section in danger of losing their property from foreclosure, or otherwise in distress on account of debt, who could be helped by the Farm Debt Adjustment Service which is now a part of the Rural Rehabilitation Program of the Resettlement Administration.

While thousands of distressed debtors in the nation and hundreds in this state have been helped to clear up their debt entanglements and chattel-mortgage to the satisfaction of both creditor and debtor, recent studies indicate that there are still those who do not take advantage of the friendly debt conciliation services offered by the Resettlement Administration. "Mr. Shields said.

"While it is not always possible to save a farm from foreclosure, in many cases we do, and there is always a good chance that we can be of some good assistance. The Farm Debt Adjustment Service is available to all farmers in serious difficulty on account of debts and it costs nothing to apply," he declared.

All one has to do is address a postal card, or apply in person, to his nearest County Rehabilitation Service who will talk over the applicant's problems and advise him whether it is possible to assist him. Mr. Shields' office is located in the court house in Murphy, N. C.

Mr. Shields calls attention to the fact that voluntary committees, composed of public spirited citizens working without pay, other than actual expenses, have been organized in every county to help with this Farm Debt Adjustment Service.

SUBSCRIBE TO THE SCOUT

These committees meet with the debtor and creditor, try to have the debt reduced in accordance with the debtor's ability to pay, or to get the debtor more time in which to pay off the debt, or to find a new creditor.

To work with the Rural Rehabilitation Supervisors and with the county committees, and especially to handle the knottier problems, one or more Farm Debt Specialists have been assigned in each state. These specialists are versed in the problems of debt and the intricacies of refinancing. They are prepared to make a careful study of the more difficult debt problems. Particularly are these Specialists called in where there is an emergency situation threatening immediate foreclosure. Mr. T. A. Holcombe is the debt specialist or Farm Debt Adjustment Supervisor, as he is technically called, covering this and several adjoining counties.
