

# Last Friday Was Another Milestone

## For The Dickey Hotel

On May 15th this famous old Murphy hostelry, with more than a half century of service rendered to mountain travelers, again became identified with the Dickey Family under personal operation of the owner, Mrs. Fred Dickey.

### EXTENSIVE IMPROVEMENTS COMPLETED FOR SUMMER

The Hotel Dickey has just been completely renovated, repainted, and improved in every possible way to make the sojourn of our guests pleasant and long to be remembered. You will thrill at our big cool rooms and new furniture in tasty designs. Perhaps best of all are the innerspring mattresses, insuring real sleep. The plumbing is new and the kitchen modernized.

### HOTEL DICKEY IS ACCESSIBLE TO MANY SCENIC POINTS

The Hotel Dickey is accessible to more scenic points of interest in Western North Carolina than is perhaps any other tourist hotel. To mention a few are the Joyce Kilmer National Forest, the T. V. A. water power developments, the Nantahala Gorge, the Great Smoky Mountains National Park, and innumerable peaks.

### OLD FASHIONED FOOD IN GENEROUS AND APPETIZING SERVINGS

In these high pressure days the cooking and serving of food has become just a routine matter with little thought given for satisfaction of guests. Not so at The Hotel Dickey, where the utmost care is given in preparation, and where food is served in generous portions in keeping with the traditions of this famous tourist center dating back more than half a century.

### PERSONAL ATTENTION BY THE OWNER GUARANTEES SATISFACTION OF GUESTS

As in all hotels of wide reputation, management of The Hotel Dickey is something more than just a passing matter. The happiness of guests is of real consideration at all times. Many famous old recipes have been brought out again by the chefs for enjoyment of visitors at the hotel.

Hospitality, Comfort, Fine Foods . . . and Plenty of It!
