When thawed before cooking, poultry cooks more evenly and with greater economy of fuel.

It may be thawed slowly in a refrigerator. A three or four pound bird will take overnight or longer to thaw completely, or it may be thawed at room temperature, in which case it should be watched closely. Once thawed, cook poultry without delay because

### Be Quick To Treat Bronchitis

Creomulsion blends beach good crocots by special process with other time tested medicines for coughs. It contains no narcotics.

thawed meat is more perishable than meat freshly killed.

Don't try to hurry thawing by soaking the frozen meat in water, hot or cold. Soaking causes loss of good juices.

Sometimes a room hides its light not under a bushel but under layers of dust. Even a very thin film of dust can obscure considerable light, household management specialists say.

If your home suddenly looks dim and gloomy, it may need a little extra dusting and polishing of all light centers, lamp bulbs and shades, mirrors and windows as dust often clings to volatile oil from cooking or smoke which has settled on light bulbs, windows and mirrors. Washing is usually a better way to remove greasy dust than dusting.

Brushing is better than rubbing for extra-soiled places on blouses, under-wear and other delicate fabrics when washing these by hand, say textile specialists. Collars, cuffs, shoulder straps and other parts that get the most soil also get the most wear. Rubbing during laundering adds to that wear, especially if the fabrics is rayon. Brushing with a medium-stiff brush is easier on fabric — and on hands and often removes soil more quickly and effectively.

## A BETTER WORLD ?

There's plenty of room for improvement in this old world of ours.

Of course, it is just about perfect from a structural standpoint. It spins through space with such mathematical precision that man can count days and months and years—and even print them on calendars without fear of error.

But where life and people are concerned . . . even a child can see that things are pretty badly muddled.

What of 1946? Will it bring a better world? Will there be more happiness and less sorrow . . . more love and less hatred . . . more good, less evil?

Our world will always be what we are. Only as the lives of men change, can the life of the world improve.

The Church is dedicated to building better lives. By religious education, by worship, by preaching the highest moral and spiritual standards, the Church can make a better you and a better me. There is no other way to a better world. The Church is the salvation of mankind.

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the Church of his choice. They are: (1) For his own sake, (2) For his children's sake, (3) For the sake of his community and nation, (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to Church on Sunday.
