### PEACE AND JOY

(The following poem was chosen as one of the outstanding poems submitted on an assignment in the eleventh grade English class, in Andrews school. It was written by Mary Abernathy.)

Where is the peace we all should know—  
Is it in the quiet evening's twilight glow,  
In the night wind's soft low sigh?  
Or in the cool morning as light draws nigh?

Where is the joy for which we'd die—  
Is it in that extra thick piece of cherry pie,  
In that strawberry soda with ice cream,  
Or in the winning of your football team?

Where is the peace we all strive for—  
Is it by the quiet sands of the summer seashore,  
In the fall with its colors of every hue,  
Or in the winter's frosty dew?

Where is the joy for which we wait—  
Is it in the fresh morning glories by the garden gate,  
In the fragrant smell of a summer-time rose,  
Or in the lofty mountains as they pose?

Where is the joy and peace today?  
They're everywhere—be happy and gay!  
And if there's faith in each good thing,  
Joy and Peace, to us God will bring.

## LET'S TAKE STOCK NOW

Everybody wants goods.

Manufacturers want to make them for you.

Yet months after the war's end, you still find it difficult to get many of the things you want and should have.

So, isn't this the time for all of us to take stock : : : to learn a lesson : : : to find out, if we can, what will cure the troubles we are having and prevent their recurrence?

Let's look ahead and agree on a program that will insure the full production everybody agrees is the real answer to most of our problems.

Suppose we begin by taking a good look at three roadblocks to prosperity:

### STRIKES

Whatever their justice or injustice, strikes paralyze production, force people to use up their savings, and result in losses that can never be made up.

### PRICE CEILINGS

Full production isn't possible when industry suffers losses because of rising costs and frozen prices. Price

ceilings limit production — goods just don't get made.

### GOVERNMENT SPENDING

Continued huge government spending means continued high taxes. High taxes discourage production, hinder the creation of jobs, and leave you less to spend.

### ISN'T THIS THE WAY?

The people, through Congress, can remove these roadblocks in the long-range interests of all : : :

By establishing a labor policy that will treat labor and management exactly alike, and above all be fair to the public;

By removing the shackles of price control on manufactured goods;

By cutting down on government spending now and balancing the Federal budget by the 1947 fiscal year at a level of income and outgo that taxpayers can stand.

Do you believe this program is in the public interest?

Your Representatives in Congress are the only ones that can put it into effect. Tell them how you feel about it.
