TO PREVENT FIRE IN THE HOME

"Don't's":

1. Don't leave children in the home unattended.
2. Don't leave matches within the reach of children.
3. Don't smoke in bed.
4. Don't use gasoline or other inflammable fluids for cleaning in the house.
5. Don't use coins or other metal to "bridge" a burned-out fuse.
6. Don't be an amateur electrician and tamper with the wiring in your house.
7. Don't put hot ashes in wooden boxes or barrels.
8. Don't use kerosene to start or quicken fires.
9. Don't leave electrical appliances unattended with the current turned on.
10. Don't run electrical extension cords under rugs.
11. Don't use candles or matches for illumination in closets and attics.

"Do's":

1. Place plenty of ash trays about the house.
2. Have all worn or frayed electrical cords, or defective electrical appliances, repaired or replaced.
3. Keep a metal screen in front of the fireplace.
4. Clean out all combustible rubbish, old papers and trash from your basement, closets or attic.
5. Keep oily rags, paint rags, or oily dust mops in tightly-closed metal cans.
6. Have your furnace cleaned and checked at the end of each heating season. Repair defective flues or pipes.
7. Avoid "forcing" or overheating your furnace in cold weather.
8. If supplementary heaters are necessary, fix them so they can't be moved around or knocked over.

How women and girls may get wanted relief from functional periodic pain

Cardui, many women say, has brought relief from the cramp-like aches and nervous strain of functional periodic distress. Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "time" to come. Started 2 days before "your time", it should help relieve pain due to purely functional periodic causes. Try it!

CARDUI

We're Blowing Your Horn!

How? By telling the rest of the nation... over and over again... to "Look Ahead—Look South" for industrial opportunities.

Month after month... year after year... we're putting out hard-earned cash to buy millions of pages of advertising in nationally-circulated publications. So that we can "sound off" about the fast-growing Southland. So that we can place persuasive facts before the nation's industrialists, businessmen, and financiers.

"Letting people know" is paying off, too. Just look at the many busy new factories throughout the South. And more are on the way!

We're blowing your horn. Sure! But we know it's our horn, too. Because the Southern Railway is part and parcel of the South. Because we also benefit when we help the territory we serve to grow and prosper.
