GROWING Here's what we did to meet North Carolina's telephone needs during 1951... Installed 63,105 New Telephones for a gain of 23,647—nearly 9,000 of them in Rural Areas

Installed large amounts of new pole lines, cable, switchboards and other facilities. GOOD AND GROWING telephone service is essential to National Defense and to the growth and progress of this state. The needs are huge. The job is great and costly. But progress has been fast and sure. Some materials are scarce, but we'll get along with the job in 1952 with the same determination that has more than doubled the number of telephones in 5 years.—Southern Bell Telephone and Telegraph Company.
