No damage on the road. Quick turns in the field. Backs, too.

DEARBORN
Lift-Type
TANDEM DISC
with built-in angle...never needs changing

Nothing like it on the market! This great disc can be attached to a Ford Tractor in a minute or less. You lift it off the ground by just moving the Ford Tractor Hydraulic Touch Control lever. Speed down the highway with no wearing or chipping of blades.

In the field, you lift the disc for turning. This prevents ridging dirt, saves time and fuel. Lift it over wet spots and for backing, too. There's never any pulling at ropes or levers. "Fixed" angle of gangs and rigid frame give level, uniform result at any depth desired.
