

### Andrews Baptists Hold Youth Week

The First Baptist Church of Andrews is observing Youth Week this week, April 13-20, with the young people of the church holding all of the church offices and being responsible for all activities of the church during the week.

Jim Cathey delivered the Sunday evening sermon Easter Sunday.

On Monday at 1:30 p. m. there was a meeting of the recreation committee and at 2:30 p. m. there was a meeting of the Board of Deacons. During the afternoon the young people had "church cleanup".

On Tuesday night there was a special choir practice and on Wednesday there will be a special music program with the young people in charge of the prayer service.

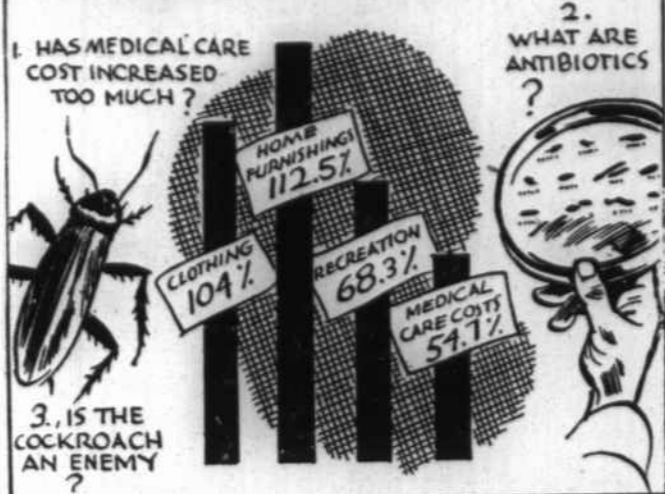

Thursday evening will be observed as visitation night beginning at 6:30 p. m.

Saturday will be recreation night with fun planned for everyone.

On Sunday evening, April 20, George Pullum, Jr., student at Mars Hill College, will deliver the message concluding Youth Week.

The officers elected by the church are as follows: Jim Cathey, Youth Week pastor; George Pullum, Jr., associate pastor; Bobby Bess, Floyd Brooks, Kenneth Barker, Johnny Hall, William Franklin, James Lunsford, Charles Thomason, deacons; Carolyn Dupree, church clerk; Dolores Flowers, church treasurer; Doris Raxter, music director; Carolyn Dupree, organist; June Lunsford, pianist; Doris Dockery, reporter.

### GOOD HEALTH

#### Answer to Question No. 1

The U.S. Bureau of Labor Statistics shows that clothing costs in June 1951 were 104 per cent higher than the 1935-39 average, house furnishings 112.5 per cent higher, and recreation 68.3 per cent. Medical care costs, however, were only 54.7 per cent above the 1935-39 period. When there is serious illness in the family, medical costs can be high. Nevertheless, the financial burden of medical, surgical and hospital costs to an individual can be lessened by health insurance plans now available.

#### Answer to Question No. 2:

Antibiotics are substances developed from moulds. They are

used to destroy or limit the action of certain bacteria or viruses. Antibiotics include penicillin and several others. They ordinarily do not harm normal cells. Antibiotics have been very successful in curing pneumonia, tuberculosis, blood stream infections, syphilis and many other infections. Your family doctor is well informed in the use of antibiotics.

#### Answer to Question No. 3:

Presence in your household of the cockroach means that your housekeeping could be improved, for the roach loves dark, damp, dirty places. It may act as a carrier of disease germs.
