

Water System Improvements In Andrews Going Forward

Claude Watson, Andrews town clerk, has announced that the pipe laying work in Andrews has been completed. This part of the water system improvement project included the laying of 9,590 feet of 6 inch water mains (cast iron); 1233 feet of 8 inch cast iron main; and 574 feet of 2 inch galvanized line. Also installed were 12 six-inch fire hydrants. Water supply lines were reinforced at two river crossings. The work also included the installation of four air relief valves and two blow off valves.

The estimated cost of the work was \$44,518.82. The actual cost was \$41,602.63, or \$2,116.19 under the estimate.

Included in this part of the work was the laying of a new main to Berkshire Knitting Mill. Twenty-one new house connections were made or improved. Approximately two-thirds of the towns water supply has been improved.

Final inspection was made April 30.

Work is now going on at the filter plant. The contractor states that about 13% of that job is completed. He states that construction of a new dam will start as soon

as he receives the final delivery date of the steel.

Miss Alma Brooks Honored At Shower

Miss June Lunsford entertained with a bridal shower at her home Tuesday night, honoring Miss Alma Brooks, bride-elect of Truett Gray, both of Andrews.

Appropriate games were played, after which the guests assembled in the dining room for refreshments. The dining table was centered by a bowl of iris, flanked by white tapers. Cake and punch was served, Miss Geneva McGuire presided over the punch bowl.

Many beautiful and useful gifts were received by the honoree. Approximately thirty guests shared in the courtesy.

CAUTION LIGHT

A blinker caution light will soon be installed by the Town of Andrews at the intersection of Graham and Second Streets.

Gives Summary Of Local, State Job Openings

By EDSON E. BATES
Supervising Interviewer

In this column we will try to give you a monthly summary of both the local and state employment picture. For further information concerning job openings mentioned please consult your local employment office in the courthouse.

First, locally we now have a few interesting job openings. We have need of a man with at least a high school education who has a legible hand and the ability to meet and talk to people. A handicapped person who is able to walk would be well suited for this job since it does not entail physical labor of any kind. We also have immediate openings for a waitress, a cook and a dishwasher. In addition we now can use a man experienced in operating a pasteurization machine and doing other dairy work. We have openings for a man and a woman, one to work as a mangle operator, the other as a laundry washing machine operator. Also, open now is a position for a Registered Nurse and for Nurse's Aids.

In our region which covers Maryland, Virginia, North Carolina, South Carolina and Georgia we have a great number of job openings. All of these jobs require experience or a combination of experience and education. Many of the jobs are at a high rate of pay. Below are a few of the openings in other areas that may be of interest: Accountants, copy writer, chemist, commercial teacher, civil engineer, radio engineer, electrical engineer, mechanical engineer, dietitian draftsman, office manager, bricklayers, meat cutters, knitting mach. fixer, bookkeepers, gen. office clerk, stenographer, clerk typist, salesman, cooks, barber, machinist, tool maker, shipfitter, electrician, carpenters, auto

...is for Diesels...and Defense!

And "D" is for "Dollars," too—the \$120 millions of Dollars we have spent in recent years to buy the 847 modern Diesel locomotive units that now haul nearly all of our trains.

At a cost of many more millions of Dollars, we have also been building new yards and modernizing established yards to provide timesaving freight classification facilities that are among the most modern and efficient in the country.

These Dollars for Diesels, for yards and for other improvements of every kind, are Dollars for Defense, too. For they have bought—and are continuing to buy—faster, better, more dependable service for the vital national defense traffic that is riding in ever-increasing volume on the Southern Railway today.
