In a precious moment of relaxation,

a young infantryman bathes his weary feet in his steel helmet. With the aid of an American magazine, an American cigaret, he snatches a few brief dreams of home and peace. Soon he'll be back at his job in defense of the way of life he's left for a while.

You can do a vitally important job for defense, too—and easily! All you have to do is start buying U. S. Defense Bonds regularly. Why is this important? Because *America's defense begins at home!* When you are financially independent and your family is secure, our country's economy is strong. That strength backs up our armed strength—and it takes both to keep America at peace. For today, peace is only for the strong!

So go to the pay office where you work and sign up for the Payroll Savings Plan, or join the Bond-A-Month Plan where you bank. But do it today. Your savings can save America!

The U. S. Defense Bonds you buy give you personal financial independence

Don't forget that bonds are now a better buy than ever. Because now every Series E Bond you own can automatically go on earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not just \$25—but as much as \$33.33! A \$37.50 bond pays \$66.66. And so on. For your security, and your country's too, buy U. S. Defense Bonds now! Bankers recommend them as one of the safest forms of investment.

Peace is for the strong...
Buy U. S. Defense Bonds regularly!
