Does anyone need a good baby sitter? Now that school is out you would be surprised at the number of high school girls who have applied for this type of work at your employment office. We have applications on file and should be able to find the type of person you need to stay with your children. Just call the N. C. State Employment Service Office at the Court House and put in your order.

Incidentally, these high school girls are not the only people who apply for work at the employment office. At present we have over six hundred applications from all types of people who are looking for work. If you need a secretary, a bookkeeper, a carpenter or someone to clean out your basement we are not only willing but will be glad to assist you. Just call "70" and place your order. Of course there is no charge for our service.

Employment prospects in Cherokee County at the present time are not too bright. However, if you are a skilled construction worker, office worker or shipyard worker we have several job openings out of this area that offer good rates of pay. If you are a high school or college graduate without experience we have several very good job openings that offer good possibilities for advancement. If you meet these qualifications and are willing to leave this area for work drop up to the State Employment Service office in the Court House and let us discuss these jobs with you.
