PETTY CASH

Some loose change . . . a few dollar bills . . . in a little tin box. In business, they call it "petty cash." Every home has its "petty cash" too . . . maybe in Mother's sugar bowl . . . maybe in Dad's back pocket. And isn't it amazing how low "petty cash" gets by the time next payday rolls around? If you figure on saving "what's left", you may not get very far. Try this better: Deposit a fixed amount in your savings account FIRST, then spent "what's left." Before you know it, your cash in the bank will be far from "petty"!
