MOST ADVANCED HYDRAULIC SYSTEM IN ANY TRACTOR

NEW FORD TRACTOR

Now, in the new Golden Jubilee Model, Ford Tractor engineers have carried a time-proved hydraulic system to a new high in speed of response, lifting power, dependability and wide usefulness.

This Live-Action hydraulic system gives almost instant action at all times when the tractor engine is running. It handles larger implements and heavier loads. And, with Hy-Trol, it acts even faster when desired. Also possible is an almost unlimited variety of remote cylinder* operations. In addition to all the time-proved advantages of the Ford Tractor's built-in hydraulic system, you get a choice of hydraulic speeds, quick hook-up, smooth operation of remote cylinders* and the ability to handle bigger loads.

The more you learn about the new Ford Tractor the more you will find that it can bring new ease and speed to your farming—new economy, too. Come in—look it over!

Credit Terms To Meet The Farmers Needs.

LOVINGOOD IN KOREA

Marine Staff Sergeant Roy F. Lovingood, 21, son of Mr. and Mrs. W. B. Lovingood of Murphy Route 1, is now serving with the First Marine Division in Korea. A former student of Murphy High School, Lovingood entered the Marine Corps in August 1948 and was promoted to his present rank last March. Prior to his overseas assignment the local Leatherback completed a special infantry training course at Camp Pendleton, Calif.

The 5.4 billion eggs laid in January set a record for the month, topping the 1941-51 average by 22 per cent.

ARTHRITIS ?

I have been wonderfully blessed in being restored to active life after being crippled in nearly every joint in my body and with muscular soreness from head to foot. I had Rheumatoid Arthritis and other forms of Rheumatism, hands deformed and my ankles were set. Limited space prohibits telling you more here but if you will write me I will reply at once and tell you how I received this wonderful relief.

Cherokee Included In TVA Survey

Cherokee, Clay and Buncombe Counties will be included in an inventory of forest resources of the Tennessee Valley by TVA it was announced today.

The first TVA inventory of timber supplies in the Valley was made in 1940 and in 1930 detailed surveys were made in 19 sample areas.

Under the new proposal TVA will survey a number of counties each year and cover the entire Valley over a 10 year period. Such a plan, it was said, will provide more up-to-date information on industrial opportunities and needs for resource development.

It will also be more economical than trying to cover the whole Valley once each decade, TVA believes.

The continuous survey will begin in the 1954 fiscal year and will be concerned with an attempt to find out for the entire Valley how much forest land is being managed for continuous yield.

Marble

Mack Hensley spent the week end with Oscar Cable.

Kenneth Cook caught a 14 in. rainbow trout out of Valley River Monday night of last week.

IN MEMORIAM

In memory of our father, L. L. GARLAND, who left us March 29, 1946.

We saw you fading like a flower, But you tried so hard to stay. We nursed you with tender love, Until God called you away. Although the World in which you live

is free from care and pain. Our world would be like heaven if we had you back again. It's only human to want you back But this we know is true You never can return to us. But, we can come to you.

A daughter, Mrs. Ralph Ledford, and grandson, Ernest. 37-16
