You're "sitting pretty" behind the wheel

Take this Bel Air model. First thing you'll notice is the quality of the interior. Rich-looking appointments. Roomy seats with foam rubber cushions. Turn the key to start the engine and you're ready to go.

You can see all around

You look out and down through a wide, curved, one-piece windshield. The panoramic rear window and big side windows provide a clear view in all directions.

And it's the lowest-priced line

A demonstration will show you that Chevrolet offers just about everything you could want. Yo it's the lowest-priced line in the low-price field.

Biggest brak's for smoother, easier stops

An easy nudge on the pedal brings smooth, positive response -right now! Chevrolet's improved brakes are the largest in the low-price field.

I figure this demonstration saved me many hundreds of dollars!

I expected to pay that much more for a new car until I discovered I was better off in every way with this new Chevrolet!

Let us demonstrate all the advantages of buying a Chevrolet now!

CHEVROLET /

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

You get greater getaway with the new Powerglide*

A lot finer performance on a lot less gas. That's what you get with the new Powerglide automatic transmission. There's no more advanced automatic transmission at any price.

You get more power on less gas

That's because Chevrolet's two great valve-in-head engines are high-compression engines. In Powerglide* models, you get the most powerful engine in Chevrolet's field — the new 115-h.p. "Blue-Flame." Gearshift models offer the advanced 108-h.p "Thrift-King" engine.

It's heavier for better roadability

You're in for a pleasant surprise at the smooth, steady, big-car ride of this new Chevrolet. One reason is that, model for model, Chevrolet will weigh up to 200 pounds more than the other low-priced cars.
