Read these facts on how to increase your estate with The Pilot's sensational Golden Anniversary

REFUND OF PREMIUM SAVINGS PLAN

Take an example. Suppose you are 30 years old. The face amount of your plan is \$5,000. You'll make 20 annual deposits of \$193.05 each. Your total investment will be \$3,861. IF YOU LIVE, you can benefit four ways—

1. At the end of 20 years you will have a paid-up life insurance policy of \$5,000.
2. The guaranteed cash value plus accumulated dividends at that time will be \$4,157.25*.
3. You have been protected for 20 years with \$5,000 life insurance, and at the end of that period the value of your policy is more than you have deposited—a profit of \$296.25*.
4. If you leave deposits and dividends with The Pilot until you are 65, you will have in cash value and dividends \$6,745.65*. This gives you an attractive retirement income for life, or cash when you need it most. Your profit at age 65: \$2,884.40*.

NOW LOOK AT THE PILOT'S REFUND OF PREMIUM FEATURE—
If death occurs at any time during the first 20 years, all premiums paid will be refunded. For example, if death occurs during the 19th year, your beneficiary will receive:
Full face amount.....\$5,000.00
Plus accumulated dividends.....\$1,181.85*
Plus return of all 19 years' premiums.....\$3,667.95
TOTAL.....\$9,849.80

*These figures containing dividends, which are not guaranteed, are NOT estimates but are based on The Pilot's present dividend scale, present interest rate and the assumption that all dividends are left with The Pilot to accumulate.
