## Stewards Of God

Lesson for November 15, 1953

IF THERE is anything the Bible teaches clearly, it is that man does not own this earth. It is given him, not permanently, not to do with as he pleases, not to waste, not to use selfishly; but given him, to each generation, to use for the service of man and to the glory of God. Man is expected to contribute something of his own toil and thinking; expected to put something in as well as take something out. Human nature being what it is, we tend to take credit to ourselves for all we possess. However, when a man honestly recognizes how much of what he has comes to him as a gift from God, he can see that his life is a partnership with God, and Dr. Foreman that God as an investor in the human enterprise has the rights of a senior partner and owner of most of the stock. To act as if we ourselves were the lords of creation is plain dishonesty.

### The Church, God's Special Agent

Let it be said again, though it has been said before: The church is the one community on earth which is devoted solely to carrying out the purposes of God. The church is God's channel of action; the church is the body of Christ through which our Lord lives and works. The church is the one organization devoted to the "ideal world"—the kingdom of heaven—which aims at bringing about that world through the most fundamental of all methods, transforming life from within. The church is the one organization on the planet whose aims actually go beyond time, for its intention is to prepare men not only for usefulness here under the sun but for eternal life.

Now you would think that church members would realize this and act accordingly. But most of them do not. (Query: Is a "church member" who neither knows nor cares what the church is doing, a real member at all?) Look at these facts: Out of the total income of church families throughout the U. S. A., only 1.1 per cent is being given to churches and their work. Only 1.83 per cent of taxable income is deducted for gifts. Only about 45 per cent—less than half—of the present membership give anything of record for local church support; and only about 30 per cent give anything to the unreaching benevolent activities of the church. You might not be surprised that non-Christians are selfish; but when more than two-thirds of the enrolled church members don't put in one red cent for the unselfish purposes for which the church exists, something is rotten in Christendom.

### Four Points In The Christian Program

Let us come to some more brass tacks. There is no argument among the leaders of all Christian churches that there are four major emphases in the program of the church. 1. Evangelism—winning new Christians. (If you don't believe in that, you are voting for Christianity's sickness and death.) 2. Christian education—training better Christians, learning how to serve as Christians in every walk of life. (If you don't believe in that, you are voting for an infantile kind of Christianity, blind to the problems of life today.) 3. Missions—spreading Christianity into new territories. (Don't forget that if it had not been for missionaries, your own race would never have heard the gospel.) 4. Stewardship—the active recognition of God as giver of life and life's possibilities, of God as senior partner in our lives, of the fact that what we have, we hold in trust for him.

Now it must be clear to any one who will take the time to think it over, that if point four is left out, the other three will just collapse.

### What Is Your Church Doing?

At the grass-roots of this whole problem is the local church. What is yours doing to improve this situation of neglect? Does the minister preach on stewardship? Is stewardship studied in the church school? Do the adult study classes ever look into this matter seriously? Are new members "briefed" about being stewards of God? Do the young people's programs ever go into this?
