Try this great **NEW** gasoline in your car

"TOTAL POWER" ESSO EXTRA

TOTAL POWER means:

- POWER for quick starting in any weather.
- POWER for fast warm-up
- POWER to resist cool weather stalling
- POWER to kill off knocks and pings
- POWER to take steep hills in stride
- POWER to pick up swiftly, and smoothly from a standstill
- POWER to get the most possible working horsepower from any engine under today's all-round driving conditions

KNOCK AND PING are completely stopped in millions of cars, particularly in the overwhelming majority of new cars and especially those with high-compression engines.

FULL PERFORMANCE is made possible for many other new cars which now have their sparks deliberately retarded to prevent knock.

COOL WEATHER STALLING and power loss caused by carburetor icing are effectively combated by an anti-stalling ingredient. Esso Extra was the first fuel to give you this extra value.

BETTER MILEAGE and better all-around performance can be obtained in short trip, round-town driving this winter by motorists who formerly used "regular" gasoline.
