ANNOUNCING...

The Dearborn FOLD-OVER DISC HARROW

2 Tools in 1— It puts you Dollars ahead!

As a Tandem Disc Harrow, its eight 20-inch notched discs on front gangs, and ten 18-inch notched discs on rear gangs break chunks of clay and sod—pulverize, level and finish.

As a Bush and Bog Harrow with rear gangs folded over the front gangs, it acts a bush and bog harrow with near 100 pounds on each of its eight front discs—to chop and churn tough, trashy surface growth.

In both positions, the Dearborn Fold-Over Disc Harrow lifts or lowers by Ford Tractor Hydraulic Touch Control. Built strong—weighs about 720 pounds—it's a real time and money saver. See us soon for a demonstration.
