I had fire insurance - but I'm out of business for a while

One kind of insurance he forgot

You can't have your business burn down, and go right on doing business, the next day.

Don't forget, you may lose your income for several months.

Wise business men, therefore, carry "business interruption" insurance along with fire, windstorm, etc. It may mean the difference between solvency and bankruptcy to them.

The cost of such insurance is so low you can't afford to miss it. Ask us about an American Fore policy to protect you against this possible serious loss.
