IN MEMORIAM
In loving memory of Fred Taylor who died Feb. 9, 1954.
God bless my husband in his grave... One year ago today... Who did the best he could to live. According to Your way... He Loved You, God, and in his heart... He loved our family... And prayed for our reunion in... Your great eternity... There were so many things on earth... He hoped that he could do... Including all his dreams for us... That never could come true... Dear Father, keep my husband in... Your good and loving care... And let him rest in peace, as I... Implore You in this prayer... Protect him with Your blessing... The kindest of men... And when my day is over, let... Me be with him again.
Mrs. Fred Taylor
29-1tp

State College Extension Dairy Specialists have urged dairymen not to raise calves for herd replacements that are from cows that produce less than 6,000 pounds of four per cent milk or 240 pounds of butterfat annually.

ASK THE MAN TO OPEN THE HOOD!

Ask: "Does this truck have a modern Short-Stroke V-8 engine?"

THIS YEAR the truck industry is beginning to follow Ford's lead to modern short-stroke V-8's. They last longer—prolong ring life up to 53%! Save up to one gallon of gas in seven! But ONLY FORD has four V-8's... one for every size truck in a full line... available right now!

Ford's got the most modern short-stroke SIX too! Ford's 118-h.p. Cost Clipper Six has the shortest piston stroke of any Truck Six! It's available in this new Ford Pickup, GVW 5,000 lbs., and all Ford Trucks through "2-ton" Series.

Modern short-stroke V-8's are beginning to take over in trucks—just as they've already done in passenger cars. Today, virtually every passenger car offers short-stroke V-8 power. Before too long, the same will be true of trucks. So, if you buy a truck with a long-stroke Six today that's not being built tomorrow, what will happen to its ultimate trade-in value? Play it safe! Don't settle for anything less than a modern short-stroke engine!
