

## Folk School Short Course Includes Crafts, Recreation

Basketry, a nearly forgotten home-craft, will be taught at the Folk School during their short course in camp and community recreation May 22-29, it was announced this week.

A professional basketmaker from Highlands will teach the course, starting with gathering white oak for splits and ending with various types of baskets.

Other activities and classes for the short course will include:

1. Nature lore, by a state forester, district wildlife biologist, a bird enthusiast and a Boy Scout executive who specializes in camping and hiking.
2. Handicrafts, such as copper enameling, woodcarving, wooding, copper foil, textile painting and blue printing.
3. Sang leading.
4. Vespers and campfires.
5. Group games.
6. American, English and Danish folk dances.
7. Discussion periods, to share experiences and philosophies in recreational programs.

**SPECIAL ARRANGEMENTS**  
Special arrangements are being made for local students who wish to commute each day, such as leaders in camps, daily Bible schools, Boy Scouts, playgrounds, Four-H Clubs and community recreation programs.

Classes begin Monday morning, May 23 and end Saturday evening, May 28.

The Folk School said it believes that wholesome recreation gives zest and meaning to a person's spiritual and vocational life, "just as salt improves the flavor of food."

And, the school said, it also believes that leaders in camp or community group programs can be most effective when they know a few recreational activities well, when they have a good philosophy of "how and why" recreation fits into a wholesome way of living; and when they can respect another person's leadership as much as they expect their own to be respected.

Punch-line to the year's hottest power story—

## Chevrolet "Turbo-Fire V8"!

This is the engine that's writing a whole new chapter in the book of automobile performance records. This is the engine that has stock car timers doing a "double take" at their stop-watches wherever experts gather to compare the abilities of the 1955 cars.

Forexample, in the recent NASCAR stock car competition at Daytona Beach, Florida, Chevrolet literally ran away from every other car in its class—and a raft of others besides. In the one-mile straightaway run for low-priced cars, the first two places—and six of the first ten—went to Chev-

rolets. And in acceleration runs from a standing start against all comers, the Motoramic Chevrolet beat all other low-priced cars—and every high-priced car except one!

What's behind this blazing performance? A compact honey of a V8 that only the world's leading producer of valve-in-head engines can build. Chevrolet's new "Turbo-Fire V8".

It puts a new kind of fun in your driving life. You're in charge of 162 high-spirited horsepower—or if you're looking for even more excitement, the new "Super Turbo-Fire V8" (optional at

extra cost) puts 180 h.p. under your toe!

Pick the one you'd rather have fun with, then come in and get behind the wheel. You'll see why the Motoramic Chevrolet is showing its heels to every one else on the road!

Combine your new Chevrolet purchase with your vacation plans!

Order a new Chevrolet through us, then pick it up at the plant in Flint, Michigan, see Chevrolet built, if you like, and drive your home. Chances are, you'll save a substantial share of your vacation travel costs!
