

District Hospital

The General Hospital that is to be built in Andrews has been approved by the State and all the project lacks now is the nod from the Federal Government.

After that approval is gained, work can start on one of the greatest advancements in Southwestern North Carolina. That proposed hospital will mean outstanding medical care and modern hospital facilities for the people of Graham and Clay Counties and part of Cherokee County.

More than a few people in Andrews and the two counties gave their time and money to the project. Right now, they must be glad they did.

Recreation Program

Murphy's Summer Recreation Program starts this week and it is up to the parents of young Murphy to see to it that every advantage of the program is taken.

The parents of Murphy have the recreation program, a Boy Scout program, a Girl Scout program and the start of a Cub Scout program to draw on in the upbringing of their young.

And yet, one of the main complaints in the Boy Scout program has been that the parents, whose children are in the Scout troops, do not take time to lend a hand in the program.

It just doesn't add up when people who do not have children have to carry the load in a youth program.
