

ATTEND OES GOLDEN JUBILEE

The OES ladies above recently attended the Golden Jubilee of the Grand Chapter of the Eastern Star held in Charlotte last week. Left to right are Mrs. Blanche Odom, conductress from the Robbinsville Chapter; Mrs. Minnie Battle, worthy matron from the Andrews Chapter; and Mrs. Ethel Orr, worthy matron from the Robbinsville Chapter.

GARDEN TIME

BY ROBERT SCHMIDT

The time is at hand for sowing seed for some of the fall crop vegetables that are transplanted. Seed of tomatoes should be sown at once and seed of broccoli, cauliflower, collards, Brussels sprouts and cabbage should be sown during the next two weeks for fall plants. In the western part of the state it is also time to plant rutabaga turnips if you have use for this vegetable.

Also, there is still plenty of time left to plant succession crops of butterbeans, snap beans and sweet corn, although late sweet corn is usually severely attacked by earworms.

You will notice that many of our fall vegetable crops are closely related to cabbage and mustard. That means that you probably will have trouble with the harlequin cabbage bug, sometimes called "terrapin bug". The best control for this insect is 20% sabadilla dust applied as soon as you see a few of the insects. Fall tomatoes will have to be sprayed with ribasic copper sulphate to control leaf spot and late blight. If your soil is heavily infested with rootknot nematodes you probably will not be successful with late tomatoes.

In the flower garden it is timely to divide and replant new varieties of iris. Also, some of the best fall flowers are obtained from zinnias and marigolds sown right now.

NILE HEADSTREAM

The 500-mile-long Gagera River system, rising in hills southwest of Lake Victoria about four degrees south of the Equator, is today recognized as the Nile River's true headstream, says the National Geographic Society. Mystery shrouded the Nile's source for thousands of years. Many explorers failed to find its origin.

TALLEST CONCRETE BUILDING

Rio de Janeiro and Sao Paulo, Brazil's two largest cities, have erected the world's tallest reinforced concrete buildings. Although this method of construction is not a Brazilian invention, the techniques were advanced there. Now foreign engineers visit Brazil to learn about concrete structures.

FEW FARMERS

The number of Connecticut men who earn their living from farming has shrunk to some 3 percent of the State's population, says the National Geographic Society.

INSECT SPRAY

- Gulf Spray Aerosol Bomb
 - Trak Moth Proofer Bomb
 - Gulf Spray Roach & Ant Killer
 - Gulf Livestock Spray

Captain Frank L. Swaim judges automobile gasoline the way he judges aviation gas...

IT'S PERFORMANCE THAT COUNTS!

"My regular job is piloting a United Air Lines DC-7. On most of my flights we use Phillips 66 Aviation Gasoline. It's high-performance stuff, and one reason it's so good is Di-isopropyl. Phillips has started putting Di-isopropyl in automobile gasoline, too. They call it 'FLITE-FUEL'... and I use it regularly in my car. It gives wonderful performance."

Frank L. Swaim
Captain Frank L. Swaim, United Air Lines

Flite-Fuel puts the Accent on Performance!

If it's top performance you want, fill up with powerful new FLITE-FUEL. Both new FLITE-FUEL and new Phillips 66 Gasoline have been fortified for increased power, higher octane, longer mileage. Remember, the one real test of motor fuel is: how it performs in your car. Try a tankful at your Phillips 66 Dealer's.
