with Purina's modern caged hen plan...
you can build steady year-round income...

Producing eggs with caged hens the Purina way has caught the fancy of hundreds of poultrymen for these reasons:

Constant culling and replacement help keep production steady and high. Hens produce each dozen eggs on about 20% less feed than average. Assembly-line type operation greatly reduces labor needed to feed, cull, gather eggs, and clean. No previous poultry experience is necessary—if you follow simple instructions available at our store. Caged hens can

be handled efficiently on full-time (commercial) or part-time (family) basis.

Purina was the leader in introducing caged hens to the Southeast. Purina Chows are used by most cage operators in this area because they have found them profitable. We always have fresh Cage Hen Chows, as well as detailed instructions and service to help you succeed in, and enjoy, your caged hen business.
