Students Receive Honors At Young Harris College

Four students from Murphy, on from Hayesville, N. C. and one from Warne, N. C., were named on the Dean's List and the Honor Roll for the 1957 Winter Quarter at Young Harris College, Young Harris, Georgia.

Those on the Honor Roll and from Murphy are: Ruby Radford, Charles Helton, Elaine Lance and Jack Thompson.

Rena Bristol of Hayesville, N. C. and Mariene Barnard of Warne, N. C. were named to the Dean's List.

Honor Roll students must have an average of 85 in all subjects with no grade below 80. To be named to the Dean's List, a student must have an average grade of 90 in all subjects with no grade below 85.

These students, along with attaining this scholastic achievement, participates in many campus activities.

Nantahala District Patrol Camporee To Take Place May 3

A Patrol camping event for all patrols of 5 to 9 will take place at the Bob Allison Recreation Area between Andrews and Tusquitee on the Tuni Gap Road May 3 and 4.

Patrols are to come prepared for camping out one night. All equipment is to be packed and carried on the back of members of the patrol. Bring ground cloths and plenty of cover. Be prepared for any kind of weather, have your packs waterproofed and be ready for the first inspection upon arrival at the check-in site. Eliminate useless gadgets, you will not be graded on elaborateness of equipment, but on its practical use.

Bring food for the following meals: Friday supper; and Saturday, breakfast, and dinner. Include at least one "one pot" meal. Menu patrol organization, food storage preparation, and serving are all important because they count on your score.

There will be patrol, troop, and district activities for all. Each patrol is expected to put on a "stunt" at the campfire Friday night. Come prepared for a lot of good Scout fun and fellowship.

John Smith, Camping chairman, says "See you at the camporee."

Hog prices by mid-January had gone up \$2.50 from their seasonal low of mid-November, and a further price rise is likely during the remainder of the winter, according to U. S. D. A. marketing leaders.

Veteran's Children Should Enroll In Schools In Spring

This spring is the ideal time for young men and women to start taking action, if they intend to enroll in school or college in the fall under the War Orphans Education program, Veterans Administration suggested.

The program is for the sons and daughters of war veterans who died of injuries or diseases resulting from their military service in World War I, World War II or the Korean conflict. Generally, War Orphan students must be between 18 or 23 years of age.

VA gave two reasons for early action this spring.

First, students will have plenty of time to arrange for admittance this fall to the college of their choice. Many colleges, particularly larger ones, are crowded. A delay to the last minute can result in the disappointment of learning that their's no more room.

And second, prompt action these spring months can result in speedier service by the VA, with all the preliminaries out of the way before the rush at enrollment time begins.

It normally takes at least a month from the date an application is filed to the date VA gives its final approval for schooling. VA must check its record to determine whether the young person meets basic eligibility requirements. Then it schedules a session of vocational counseling, requirements. And then it schedules a session of vocational counseling, where expert guidance is given to assist the young person's living parent or guardian in mapping out an objective and a program of study. Final approval can come only after counseling has been completed.

By waiting until later, VA said, prospective students run into the yearly peak load of veterans applying to VA for schooling under the Korean GI Bill.

FARMING TIPS

QUESTION: What should I use to treat my soybean seed?

ANSWER: There are two chemicals that can be used for soybean treatment — Captain and Thiram. Fifty per cent Thiram should be used at the rate of 2 ounces (8 level tablespoons) per bushel of seed. Seventy-five percent Thiram should be used at the rate of 1 1/3 ounces per 100 pounds of seed. And 78 per cent Captain should be used at the rate of 1 1/2 ounces per bushel of seed. To treat, fill container about half full of seed and spread the required amount of chemical dust over seed, close lid and rotate container several minutes until seed are uniformly coated with dust.

CARD OF THANKS

We wish to take this opportunity to thank our many friends and neighbors for their many acts of kindness during our recent bereavement of our dear wife and mother, Mrs. Frances J. Walker. Charles and Becky Walker
